Sign up for GreenUp to conserve energy and support a cleaner environment!

Join **GreenUp** and you can purchase your electricity from local hydro, wind, and solar sources. These renewable alternatives offset the negative impact of coal, gas and nuclear energy production. The end result? Greenhouse gas reductions and a cleaner energy future. **Over 22,000 people have already made the switch—isn't it time you joined them?**

How It Works:

When you join **GreenUp***, National Grid will continue to issue your electric bill and provide customer service. Your monthly bill will reflect a minimal additional cost for the GreenUp option that you select. If you choose to cancel your participation at any time, you can simply notify your supplier directly. You will not be charged a termination fee and you will remain a National Grid customer.

Getting Started with GreenUp...as Easy as 1-2-3

1. Choose a supplier listed on this page
2. Complete and mail the attached postage paid card or
3. Contact the supplier directly

That's how easy it is to reduce your dependence on conventional energy sources and support the development of renewable energy in your community. Remember—your choice *can* make a difference!

For more information, go to www.nationalgridus.com/greenup.

National Grid's **GreenUp** program is ranked among the top 10 green power programs nationwide by the U.S. Department of Energy.

THE POWER OF ACTION

GreenUpSM
renewable energy options

Yes, sign me up to receive renewable energy service from the GreenUp supplier I have designated below. I am aware that by mailing back this completed card I will have a renewable energy surcharge added to my monthly National Grid bill; and National Grid will remain my electric company and provide my customer service and emergency response.

National Grid 10 Digit Account Number _____

Account Holder Name _____ Signature _____

Address _____ Daytime Phone () _____

City _____, MA Zip _____ Email _____
