

Energy Service Price History: Medium/Large Businesses

Energy Service is provided to customers who have not chosen an alternate energy supplier. Energy Service ensures that no one will be without a supplier of electricity. To provide Energy Service, we solicit bids from electricity suppliers and then enter into a contract to purchase electricity from one or more of these suppliers. We do not profit from any increase or decrease in the price of Energy Service, but merely pass the costs of the supply on to you.

Medium/Large Businesses

For customers on Rates G-1 and G-2.

Service Period	Energy Service Rate ¹
October 2011	\$0.06936
September 2011	\$0.06957

¹ These prices represent Energy Service rates as approved for billing purposes. Rates for the February 2000-April 2000 period and rates beginning November 2005 were implemented for usage on and after the first of the applicable month. Rates for all other periods were implemented on a bills rendered basis.

² For the months indicated, the Energy Services rates were to be determined based upon a formula. However, since there were no customers receiving Energy Service during these months, there were no Energy Service rates in effect.
