MEMO

TO: ISO New England

FROM: Open Access Technology International, Inc.

DATE: February 12, 2009

SUBJECT: ISO New England Announces Transfer of OASIS Web Hosting Services to Open Access Technology International, Inc.

Access to the OATI webOASIS System requires obtaining OATI Digital Certificates and registration of the company and the individual users through the OATI Support Desk.

Obtaining OATI Digital Certificates

The first step in the registration process requires obtaining OATI Digital Certificates for all end users. To obtain OATI Digital Certificates for all End Users, please complete the following steps:

1. Designate a Security Officer for the organization. The Security Officer will be responsible for accessing the OATI webCARES System for the purposes of issuing, installing, and managing Digital Certificates for all the End Users that need an OATI Digital Certificate. If the company is only purchasing one certificate, then the Security Officer should be the individual who will be using the certificate. On the other hand, if the company is purchasing multiple digital certificates, OATI recommends the Security Officer is a member of the IT or Technical staff to enhance the ease of certificate integration for the End Users.
2. The Security Officer or other Organization representative will need to complete the OATI webCARES Customer Agreement and Attachment 1 document which can be received by contacting the OATI Support desk (763-201-2020).
3. The Security Officer will need to complete the webCARES Business Representative Application Form which can be received by contacting the OATI Support desk (763-201-2020)
4. The Security Officer will send the original copies of the webCARES User Agreement, Attachment 1, and the webCARES Application form to OATI webCARES Support staff at the address listed at the bottom of the document. Additionally a copy of the completed forms can be faxed to OATI at (763) 553-2813 to expedite the process.
5. webCARES staff will verify the application form and the contact the Security Officer with information about accessing the webCARES System for issuing and managing the Digital Certificates.

OPEN ACCESS TECHNOLOGY INTERNATIONAL, INC.

2300 Berkshire Lane North | Mail Drop F | Minneapolis, MN 55441 | OFFICE 763 201 2000 | FAX 763 553 2813 | www.oati.com

This document contains proprietary and confidential information of OATI, Inc. Do not copy or distribute without explicit permission of OATI, Inc.

Company Registration on OASIS

The second step in the registration process requires registering the company with OATI by completing the Company Registration form which can be received by contacting the OATI Support desk (763-201-2020). Company Registrations can only be requested by the company's webCARES Security Officer or any other pre-authorized Company Representative. All Requests must be submitted via email (support@oati.net) or via fax (763- 553-2813).

User Registration on OASIS

The third step in the registration process requires registering the end users of the company with OATI by completing the User Account Registration form which can be received by contacting the OATI Support desk (763-201-2020). User Account changes may only be requested by the company's webCARES Security Officer or other pre-authorized company representative. Form can be submitted via email (support@oati.net) or via fax (763-553-2813).

After completing the registration with OATI, end users can have access to the Demo System with the same user account and digital certificate that will be used in production. The Demo System can be used for training and testing purposes.

Production OASIS URL: <https://www.oatioasis.com>

OASIS Training

Prior to implementation, OATI will conduct end-user training for both the transmission providers and the transmission customers. This Transmission Customer training will be conducted on the following dates:

Tuesday, March 17, 2009 from 1:00 PM - 4:00 PM EPT (12:00 PM - 3:00 PM CPT)

Wednesday, March 18, 2009 from 9:00 AM - 12:00 PM EPT (8:00 AM - 11:00PM CPT)

Training will be conducted at ISO-NE with a live web cast of the training. Register for the training with Mike Zeoli at mzeoli@iso-ne.com.

ISO-NE and OATI are committed to accommodating the requirements of the New England Transmission Owners and are optimistic that the complete conversion and transfer will be accomplished by April 1, 2009.

OATI (OATI.com) provides state-of-the-art Energy Transaction and Risk Management, Transmission Scheduling, Congestion Management; and Settlement Systems for the energy industry. OATI webOASIS, webTrader, and webTrans product lines provide the tools for generation, trading, and transmission companies to conduct OASIS business in compliance with industry regulations. OATI was formed in 1995 and has experienced steady growth to the present. OATI serves in excess of 600 client companies in the energy industry in North America.
