I understand that my signature commits me to purchase electricity under Market Rate Service for a minimum of 12 consecutive months from the date my account is switched to Market Rate Service. Once the 12-month minimum requirement has been satisfied, I may terminate my participation by giving written or verbal notice to National Grid 30 days prior to my desired termination date, which will be a scheduled meter read date. I also understand that the Market Rate Service may result in bills that are higher or lower than bills priced under the Standard Rate Service and that under this optional program my electric bill will fluctuate, based on market conditions.
