

Boulevard 77 Improvement and Resiliency Project

Project Courtesy Notice

Lowell, MA

November, 2025

National Grid is nearing completion of the ongoing renovations at the substation located at 95 Boulevard Street in Lowell, Massachusetts. The National Grid crews has been upgrading and installing new equipment at this site to improve our electric transmission and distribution systems, ensuring that we can provide our customers in the area with more reliable service.

Starting Monday, November 17, crews will begin the final restoration and landscaping work for the project. This phase will concentrate on restoring and enhancing the vegetation inside and around the substation site as we complete the last steps of the project. The final restoration and landscaping work is expected to take one week to finish.

To ensure the safety of both our crews and the public, police presence and roadway signage will be utilized as necessary. Work will mainly take place from 7:00 A.M. to 5:00 P.M., Monday through Friday. Truck drivers will take extra caution when entering and exiting the area.

We appreciate your continued patience and cooperation as we complete this important project. If you have any questions or would like further information on construction activities, please contact our Project Hotline at 781-236-6286 or email Sgraham@watkinsstrategies.com.

Sincerely,

Stephen Graham

National Grid
