An update on construction activities in your neighborhood

Bush Terminal Upgrade | 3rd Avenue and 31st Street, Brooklyn, NY

August 2026

Dear Neighbor,

We hope you are enjoying the summer. We would like to share an update on our ongoing work on the Bush Terminal Upgrade Project and provide a look ahead at what to expect over the coming weeks. This upgrade will help enhance the safety, reliability, and efficiency of the local energy system.

Most construction activities will remain on 3rd Avenue throughout August. As a result, residents accessing 31st Street from 3rd Avenue may continue to experience traffic impacts during this period. Flaggers will be on-site to safely assist local motorists and pedestrians. Crews will also be periodically working on the upgraded station, closer to 4th Avenue on 31st Street, until Mid-August.

One additional excavation is planned on 31st Street and is expected to last only a few days. This work will take place on the south side of the street, near the existing station, as part of preparations for its retirement. Aside from this activity, construction on 31st Street will be limited until mid-September when Phase II of the project begins. Phase II is the final phase of this project, the retirement of the former station. Once retirement is complete, all impacted sidewalks and roadways will be fully restored. We will send a new notification prior to Phase II work beginning.

Thank you for your continued understanding and support as we work to improve the energy infrastructure serving your community. National Grid remains committed to minimizing impacts on the community and will continue to make every effort to mitigate disruptions whenever possible.

Please do not hesitate to contact me with any questions.

Sincerely,

Project Engagement Team
National Grid
