

Upcoming construction activities in your neighborhood

Dix Hills RCV Project | April 2026

Beginning in April, National Grid crews will begin infrastructure upgrades at the southeast corner of the LIE S. Service Road and Commack Road in Dix Hills.

The Dix Hills RCV Project will install a remote-control valve (RCV) to improve system integrity and our ability to safely respond to system needs.

There will be no interruption of gas service for our customers.

What to expect:

- **Construction work hours:**
Monday – Friday, 7AM-4PM*
- **Periodic shoulder closure on the LIE S. Service Road near excavation during work hours.** Crews will work to minimize traffic disruptions, please be mindful of cones and flaggers if temporary lane closures are necessary.
- Material storage on LIE S. Service Road near work zone.
- **This work will *not* impact ingress/egress to the Park and Ride.**
- For your safety do not enter work zones.
