

Elmont RCV Project - Update

Elmont, NY | May 2023

Dear Neighbor,

We would like to inform you of upcoming work in your neighborhood. This project will install a Remote-Control Valve (RCV) on Makofske Avenue. The installation of the RCV improves system integrity and our ability to respond quickly in an emergency. There will be no interruption of service for our customers.

What to expect during construction:

- **Excavations:** Digging up of public roadways and or/sidewalks on Makofske Avenue. Open pits will be plated and secured during non-working hours.
- **Parking:** There will be no street parking available on Makofske Avenue between Herbert Avenue and Marguerite Avenue during work hours.
- **Noise impacts** from construction vehicles, trucks idling and reversing.
- **Material storage** along the east side of Makofske Avenue, next to the work zone.
- **Traffic pattern changes:** Makofske Ave will have a single lane open for traffic during construction. The street will be secured and plated during non-work hours. Please be mindful when driving through work zones and be aware of construction traffic, flaggers, signs and cones.
- **Restoration** of any disturbed roadway/sidewalk areas.
- **Direct contact with our Outreach Team.** If you have questions or concerns, please call or email our team.
