Update on work in your community

Elmont RCV Project

Elmont, NY

July 17, 2023

Dear Neighbor,

As you may know, we are currently upgrading our energy infrastructure on Makofske Avenue between Herbert Avenue and Hempstead Turnpike in Elmont by installing a new remote-control valve (RCV).

Part of this work includes mandated quality assurance testing, that is currently scheduled to begin **on or around July 25th**. During this test, you may notice an increase in noise from the associated equipment required to complete this testing. This testing is part of our integrity management process to ensure safety and compliance with industry standards. We expect tests to be complete by the end of that week.

Once completed, the new Elmont RCV will improve safety and reliability of National Grid service throughout your neighborhood. We thank you for your continued patience as we complete this important infrastructure upgrade.

As always, our crews will continue to work diligently to minimize any impacts to the community, but if you do have questions or concerns with regard to this project, please contact our Stakeholder Management team directly at (631) 213-2009 or box.LIprojects@nationalgrid.com.

For your safety, please do not enter work zones and be mindful of work zones during and after construction hours. Thank you for your cooperation and understanding as we continue to move towards finalizing this important project.
