

We are upgrading infrastructure to provide better service to your community.

Forest Hills Reliability Project | December 2025

Dear Neighbor,

Beginning in February 2026, our crews will be installing upgraded infrastructure and building a new yard within Forest Hills. This work will be completed in two phases.

Please note, there will be no interruption to service for our customers.

Phase 1 involves installing a new underground infrastructure on Metropolitan Avenue starting at 74th Avenue and ending at 70th Drive.

Phase 2 to build a new gate station and install heaters within National Grid property on Metropolitan Avenue and 70th Drive.

Benefits:

- Increased reliability of service during the cold winter months.
- Supports community growth and future energy needs.
- Allows safe maintenance of the system without affecting customers.

What to expect:

- **Excavations within the roadway.** Installing new infrastructure and testing new infrastructure.
- **Crews will generally be working on one or two blocks at a time.**
- **Traffic pattern changes during work hours.** A traffic flagger will be onsite to assist vehicular and pedestrian traffic.
- **Road Plates.** The project site will be secured and plated during non-work hours with steel street plates.
- **Restoration activities.** Temporary restoration and then final restoration activities at the end of the project.
- **For your safety, please do not enter work zones and be mindful of work zones during and after construction.**

Quick project facts:

What: Phase 1 of installation of new infrastructure on Metropolitan Avenue in Forest Hills

Where: Metropolitan Avenue between 74th Avenue and 70th Drive.

When: February 2026 to Winter 2026

Hours: to be determined

Please note: Every National Grid employee carries a photo ID card, and any contractor doing work for us is also required to carry ID.
