Hemlock Street Upgrade | September 2025

Dear Neighbor,

Beginning September 2025, our crews will be conducting approximately 23 test holes within the sidewalk and roadway of Hemlock Street, Crescent Street and Fulton Street in Brooklyn. Test holes are smaller excavations made to inspect underground utilities and record findings for a future project. This work is anticipated to take 6-8 weeks to complete. **There will be no interruption to the gas service for our customers.**

What to expect:

- **Traffic will remain open but expect lane-shifts and sidewalk closures during work hours.**
- **Traffic flaggers** will be on site to assist vehicular and pedestrian traffic.
- **Temporary impacts to roadways and sidewalks on Hemlock Street, Crescent Street and Fulton Avenue. Crews will assist residents in and out when necessary.**
- Small excavations in the roadway and sidewalks with the use of a vacuum truck.
- Crews will secure and cover excavations after construction hours with road plates.
- There will be materials and machinery storage near the construction zone during and after work hours.
- Once the work is complete crews will backfill and restore impacted areas to NYC DOT specifications.
- **For your safety please do not enter work zones and be mindful of traffic cones and signs.**

**Smell gas?
Act fast.**
