

Huntley to Zimmerman St. Reconductor Project

Fact Sheet | August 2025

National Grid's commitment to our customers and communities begins with providing safe, reliable energy. We're building a more resilient, smarter, and stronger energy network that will positively impact our communities today and for generations to come.

Starting in the Fall of 2026*, National Grid plans to begin a Transmission Line Upgrade Project on the Huntley—Packard—Walck 115kV Transmission Line which travels through the Town of Tonawanda and the Cities of Tonawanda and North Tonawanda.

Project Description

National Grid is upgrading the Huntley—Packard—Walck Transmission Line, enhancing its capacity and modernizing the system. This project will replace decades-old existing structures and upgrade lines to ensure a more reliable and efficient power grid for our communities.

Project Schedule

Construction Start: Fall 2026*

Construction Finish: Spring 2028*

Safety is Our Top Priority

In the coming months, you may notice National Grid and/or our approved contractors on the Right-of-Way (ROW). Our staff and contractors are required to carry photo IDs. For your safety and the safety of our workers, please stay clear of vehicles and any active field work.

Contact Us

If you have questions or would like more information, please contact our project hotline at 716-748-8020 or Olivia.Hill1@nationalgrid.com.
