

Lynbrook RCV Project

Lynbrook, NY | April 2023

Dear Neighbor,

We are writing to inform you that our Lynbrook RCV Project will resume on April 10, 2023. This project is a continuation of the work which began on Chester Road in the spring of 2022. We will install a Remote Control Valve (RCV) on Chester Road in Lynbrook, to improve system integrity and our ability to respond immediately in the event of an emergency. The RCV installation will happen once the water main offset work is complete.

What to expect during construction:

- **Excavation of Chester Road.**
- **Water infrastructure work.**
- **Temporary disruption of water service:** The Village of Rockville Centre will notify residents in advance of any disruption in water service.
- **Underground vault work.**
- **Temporary changes to street parking.**
- **Traffic pattern changes.** Street traffic will be open during construction, and a flagger will be onsite during work hours. Please be aware of construction traffic signs and cones.
- **Temporary material storage on Chester Road.**
- **Street plates.** The project site will be secured and plated during non-work hours.
- **No interruption to gas service** for our customers.
- **Restoration** of disturbed areas in accordance with town specifications.
- **Direct contact with our Outreach Team.** If you have questions or concerns, please call, or email our team.
