

# Building a smarter, stronger energy grid

## PL-E18 Pipeline ILI Enable (Mohawk River and I890 HDD)

Construction to Start in Your Area | March 2026

**We are writing to inform you that construction activities PL-E18 Pipeline ILI Enable (Mohawk River and I890 HDD) Project will start in your immediate area in March 2026.**

National Grid is building a smarter, stronger energy grid to deliver a more resilient energy network for our customers, and as part of this commitment, construction to replace a portion of our existing natural gas transmission infrastructure will start in your area soon. The Project is called the PL-E18 Pipeline ILI Enable (Mohawk River and I890 HDD) and is being undertaken to ensure that this extent of Pipeline E18 is inspectable via inline inspection ("ILI") which helps to strengthen the safety and reliability of National Grid's natural gas distribution network and maintain reliable transmission service within National Grid's Eastern New York gas service territory.

### What to expect

Construction on our natural gas infrastructure is about to begin in your area. The work will be performed by National Grid and its contractors and our subcontractors. The work is detailed below.

The project will be constructed in phases:

- **Stage 1:** Forestry work, where trees and brush will be removed. Also, installation of site access roads and site preparation, including installation of environmental controls.
- **Stage 2:** Excavation and construction will start.
- **Stage 3:** Restoration of the disturbed construction Sites.

### Anticipated construction schedule

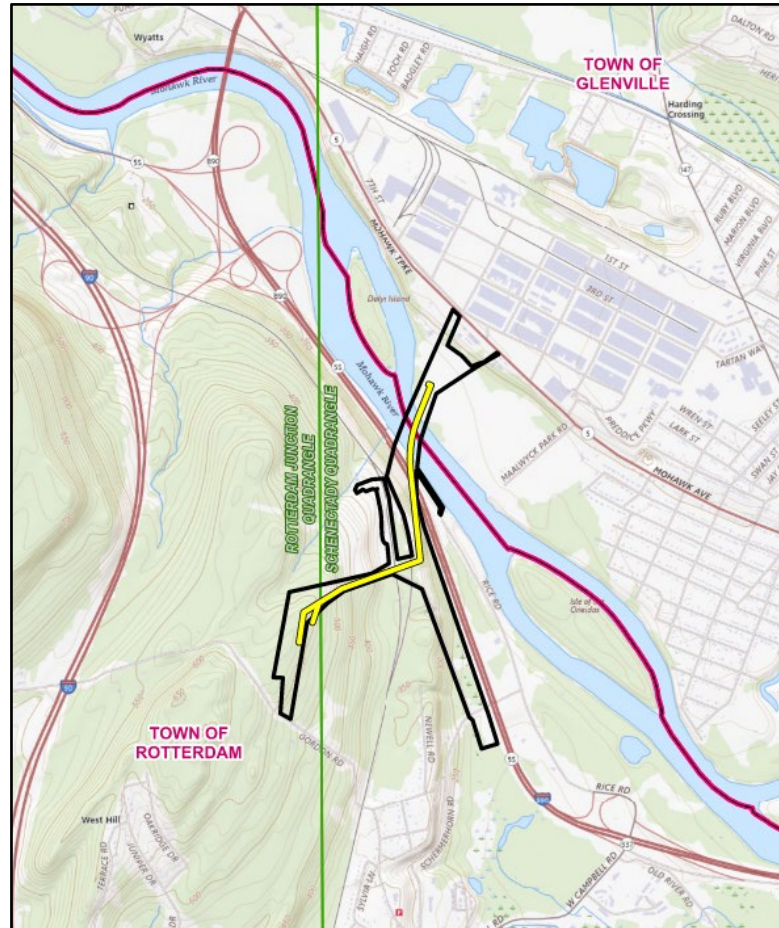

- **Construction Start:** March 2026
- **Construction End:** September 2026
- **Final Restoration:** October 2027
