

Upcoming construction activities in your neighborhood

Plainview RCV | April 2026

Dear Neighbor,

Beginning on/or around the second week of May 2026, our crews will begin working within the median near the intersection of East Old Country Road and Plainview Road in Hicksville.

The Plainview RCV Project will install a remote-control valve (RCV) to improve system integrity and reliability as well as to safely respond to system needs.

There will be no interruption to the gas service for our customers.

What to expect:

- **Periodic lane closure in the intersection of East Old Country Road and Plainview Road within the median.** Crews will work to minimize traffic disruptions, please be mindful of cones and traffic flaggers if lane closures are necessary.
- There will be a fence around the work zone and excavations will be plated after construction hours.
- There will be materials and machinery storage near the construction zone during and after work hours.
- **For your safety do not enter work zones during and after construction.**
