

nationalgrid

We are doing maintenance in your area to ensure safety and reliability.

April 2026 – May 2026

Dear Neighbor:

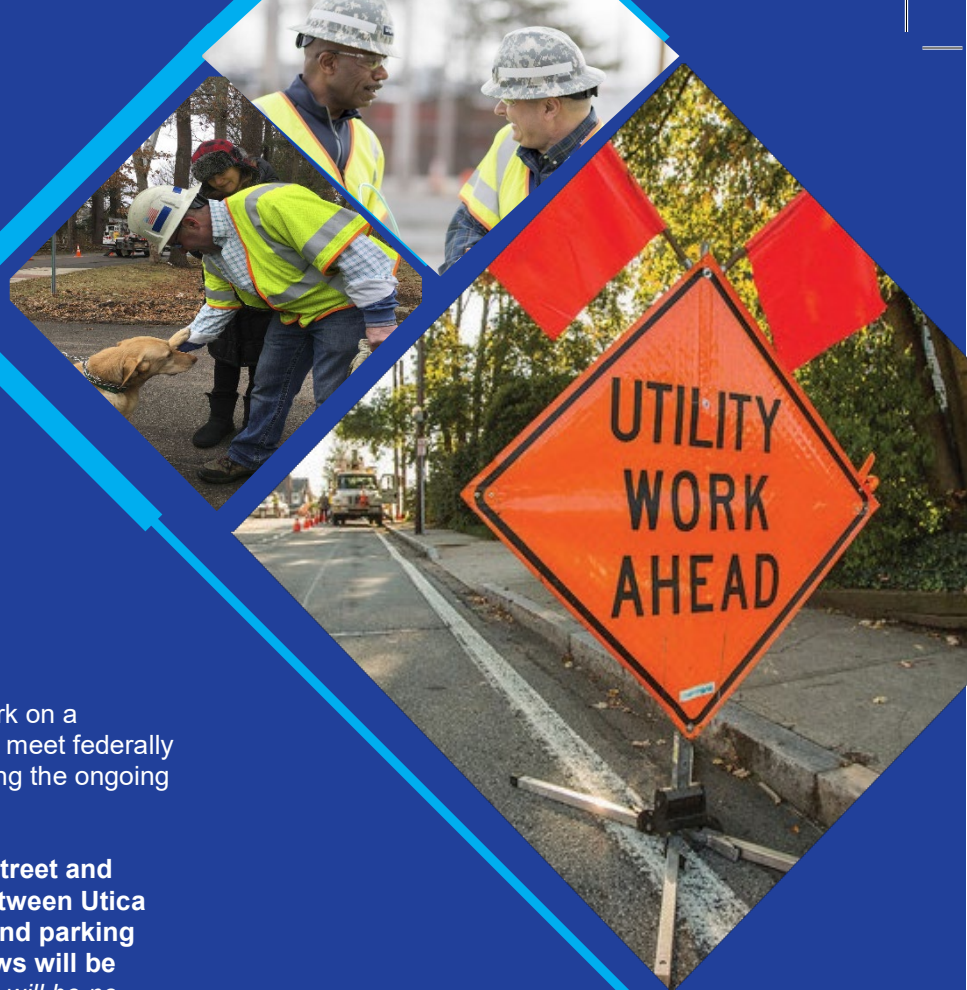

Beginning this April, National Grid will begin maintenance work on a segment of our underground infrastructure in Brooklyn, NY to meet federally mandated compliance standards that are essential for ensuring the ongoing safety and reliability of the local energy delivery system.

The project will begin on Linden Blvd., between E. 98th Street and Thomas S. Boyland Street, then move to Snyder Ave., between Utica Ave. and E. 51st Street. Residents should expect traffic and parking impacts throughout the project. As part of this work, crews will be monitoring activities for 24 hours until completion. *There will be no interruption of services for our customers.*
