

nationalgrid

We are upgrading infrastructure to provide better service to your community.

Southern Line Maintenance | Brooklyn, NY | March 2026

Dear Neighbor,

We would like to inform you of upcoming work in your neighborhood.

Project details:

Beginning on or around March 23, National Grid will begin maintenance work on a segment of our underground transmission system in Brooklyn, NY. This work is required to meet federally mandated compliance standards and is essential to ensuring the ongoing safety and reliability of your local energy delivery system.

Neighbors can expect to see the following during construction:

- **Work on Linden Boulevard.** Installing the maintenance infrastructure and performing the inline inspection of our transmission main.
- **Traffic and parking changes throughout the project.** Due to the temporary installation of above ground infrastructure, there will be 24/7 changes to traffic and parking during this maintenance work. Our crews will work with residents to minimize impacts.
- **Overnight crew presence.** To maintain safety of our sites due to the presence of above ground infrastructure, National Grid crews will maintain an overnight presence.
- **For your safety, please do not enter work zones and be mindful of work zones during and after construction.**
- **Direct contact with our Outreach Team.** If you have questions or concerns, please call or email our team.
