# We are upgrading infrastructure to provide better service to your community.

Queens, NY | March 2026

Dear Neighbor,

Beginning in March 2026, our crews will upgrade existing infrastructure in your neighborhood. This work will be completed in two parts:

**Part 1** our crew will be excavating starting in March 2026. Work is anticipated to take 6-8 weeks to complete. Once work is completed, excavations will be plated.

**Part 2:** crews will install a new valve in the summer of 2026, restoration will be complete by fall 2026.

**Please note, there will be no interruption to service for our customers**

## What to Expect During Construction

- **Roadway Work:** You may notice excavations in the roadway as our crews install and test upgraded infrastructure.
- **Traffic Changes:** Temporary traffic pattern adjustments will be in place during work hours. A traffic flagger will be onsite to guide vehicles and pedestrians. Please follow construction signs, cones, and instructions from onsite personnel.
- **Street Plates:** During non-work hours, the work area will be safely secured with steel road plates to maintain access.
- **Restoration:** Temporary restoration will occur throughout the project as needed, followed by full restoration once all work is complete.
- **Stay Connected:** Our Project Engagement Team is here to support you. If you have any questions or concerns, please reach out by phone or email.

**For your safety, please do not enter work zones and be mindful of work zones during and after construction.**

## Quick project facts:

**What:** Upgrading existing infrastructure

**Where:** Barron Street and 116th Avenue
