

Sunset Park Reliability Project

Brooklyn, NY | April 2024

Dear Neighbor,

We would like to inform you of upcoming work in your neighborhood. Energy plays a critical role in our day-to-day lives and helps ensure the well-being of our community. That's why we're investing in infrastructure upgrades in your area.

Project details:

This Sunset Park Reliability Project will entail valve replacement and associated infrastructure installation on 2nd Avenue. This work will upgrade our energy system in your area and allow for greater operational flexibility. Work will consist of trench excavation within the roadways, followed by installation of upgraded infrastructure, temporary paving and, finally, restoration of the roadway. The project **will not** interrupt your service.

What to expect during construction:

- **Marking out** of underground utilities
- **Excavation** for installation of new main and upgraded infrastructure components.
- **Temporary changes** to street parking during work hours.
- **Traffic pattern changes.** During work hours there will be changes in traffic patterns on 2nd Avenue. A flagger will be onsite during work hours. Please be aware of construction traffic signs and cones.
- **Street plates.** The project site will be secured and plated during non-work hours.
- **No interruption to service** to our customers.
- **Restoration** of disturbed areas.
