

## You may qualify for no-cost energy-saving upgrades

We're here to help you manage higher energy bills with incentives for energy-saving home improvements of **up to 100% off**, based on income eligibility.

You may receive at no cost:

Advanced power strips

Water-saving faucet aerators

Low-flow showerheads

Programmable or Wi-Fi thermostats

Home insulation

Air sealing of leaks

Appliance upgrades and rebates

## It all starts with a no-cost Home Energy Assessment.

1. Call us at **1-866-537-7267** to schedule an appointment with an Energy Specialist.
2. The Energy Specialist will visit your home and perform a complete assessment of your energy use.
3. They will identify areas where you can save energy and money.

nationalgrid

## Get exclusive incentives on heat pumps.

Turn your home into the great indoors with one heating and cooling system that does it all.

Experience the comfort of environmentally friendly heat pump technology—even during the coldest Northeast winters. All-in-one heat pumps efficiently heat and cool your home all year long. Plus, they're very energy efficient compared to other heating and cooling sources.

Whether you're looking to supplement or replace your existing HVAC system, we have incentives for you:

### Mini-Split Heat Pumps

Save up to  
\$16,000 per home

### Air-Source Heat Pumps

Save up to  
\$16,000 per home

### Ground-Source Heat Pumps

Save up to  
\$25,000 per home

To learn more about the program and the incentives offered on qualified equipment, visit [ngrid.com/ma-greatindoors](https://ngrid.com/ma-greatindoors), call **1-888-855-0340**, or scan the QR code.
