

Outlook on higher winter bills.

Natural gas prices have risen worldwide in recent months due to increased global demand and lagging production.

We're here to help.

We recognize these are difficult times for many, especially for our customers who continue to face financial challenges brought on by the pandemic.

Whenever you're concerned about paying your energy bill, let us know. If you have fallen behind and cannot pay your bill in full, you may qualify for a deferred payment agreement that lets you pay the past-due balance over time.

Our tips and programs can help you reduce energy use and save.

Tips and assistance for managing winter energy usage

We are committed to helping you manage higher energy bills, and we have programs and services to help. Explore our programs, rebates, incentives, and conservation tips at the links below.

Carbon monoxide safety reminder.

Carbon monoxide poisoning can occur any time of year but is more common during cold weather. Causes could include a malfunctioning heating unit or fuel-burning appliance or woodstove, or a blocked chimney.

If you suspect carbon monoxide poisoning, go outside immediately and call **911** or our gas emergency number: **1-800-490-0045**.

Shared meters are illegal.

Please contact us if you suspect a shared meter. A shared meter is illegal and building owners can incur large fines. Tenants should only pay for the gas that is provided to their dwelling or areas under their control.

Stay alert to scams.

Scams can happen at any time. To protect yourself, always verify the identity of any person who contacts you claiming to represent National Grid.

Where to find assistance.

The Home Energy Assistance Program (HEAP) helps income-eligible customers with home heating bills. This year, supplemental benefits up to \$10,000 toward past-due balances are offered. Visit https://otda.ny.gov/programs/heap or call the OTDA Hotline at 1-800-342-3009.

Emergency HEAP provides added funding toward heating bills for eligible applicants. If you received a Regular HEAP grant and your service is at risk of disconnection, apply for Emergency HEAP by telephone.

Our Energy Affordability Program (EAP) provides a monthly bill discount. Enrollment is automatic when we receive a HEAP payment and continues for those who apply for HEAP annually. Visit ngrid.com/discount or call 1-718-403-2216.

Project Warmth helps Long Island families struggling from recent financial hardships and unable to pay their heating bills. Visit **www.unitedwayli.org**

For added support, contact:

ConsumerAdvocacyLl@nationalgrid.com or 1-800-930-5003.

Consider our Budget Plan.

Hypothermia

Hypothermia occurs when the body's temperature drops below 95°. Keep an eye on infants, those with compromised immune systems, and the elderly.

Keep meters and vents clear of ice and snow.

Prevent a serious safety risk. Falling ice and heavy snow from a roof can damage meters, vents or service connections, resulting in a gas leak.

Gas safety tip

Never hang items from gas pipes. Doing so can weaken pipes and cause a hazard.

Operate your backup generator safely. Learn more at ngrid.com/generators

Multi-family, apartment or business complex owners please post. This is an important safety notice. Please have it translated. See "select language" link at ngrid.com
