BPI Building Analyst Professional

The BPI Building Analyst Professional (BA-P) is an advanced certification for home performance professionals. Its knowledge and skills include energy modeling, building analysis, and data evaluation. A BA-P can provide all that a customer needs to make informed decisions about how to improve the performance of their home.

The BA-P is an exciting career advancement for professionals who have already earned the Building Analyst Technician.

Steps to earning BPI's Building Analyst Professional Certification.

1   **Apply at ngrid.com/bpicertified.**

2   **Get matched with a participating training location.**

3   **Earn the Building Science Principles Certificate of Knowledge.**

4   **Get expert training for the BA-P certification exam.**

5   **Challenge the BA-P exam.**

BPI Building Analyst Professional must recertify every three years.
Candidates that meet specific work experience criteria during their certification period may be able to bypass the recertification exam.
