Rhode Island

**Participate in the
Targeted Dispatch
option and receive
incentives!**

2 to 7 Curtailment Events per Summer

Working together to lower peak energy demand.

There are times throughout the Summer when electricity use in Rhode Island reaches its highest levels. By reducing overall peak energy demand during these times, we can decrease the need for infrastructure upgrades and minimize carbon emissions. That's why National Grid is working with experienced curtailment service providers (see reverse) to offer our commercial and industrial customers incentives to reduce the peak!

Reducing energy is even more rewarding when you curtail electricity use during Targeted Dispatch events.

INCENTIVE PAYMENT

\$35 per average kW reduction per Summer

For example, if you curtailed an average of **100 kW** of electricity over the summer, the incentive your sponsor would make available would be:

$$100kW \times \frac{\$35}{kW} = \$3,500 \text{ every summer}$$

Direct Participation and Shared Savings

- Curtailment service providers (CSPs) help customers to create a curtailment plan; make sure customers are notified for each event by voicemail, email, and/or text message; review customer performance; and, if applicable, help customers to co-enroll in ISO-NE's markets. For their services, CSPs require a portion of a customer's incentive. National Grid will pay the incentive directly to the CSP. How much of this incentive is passed down to the customer depends on the negotiations between the customer and the CSP.
- Customers may enroll directly into Targeted Dispatch without a CSP. However, the customer will then be responsible for services a CSP would normally provide, and the customer may not be able to co-enroll in ISO-NE's markets. National Grid will email direct participants event notifications the day before a curtailment event starts.

Eligibility Requirements

- The customer must have National Grid electric service in Rhode Island.
- The customer must be on a commercial electric rate.
- The customer must enroll before May 31 to participate in that year's program.
- Customers who sign up for the program will remain in the program until they unsubscribe.

About Targeted Dispatch Events

- Events will be called the day before curtailment is needed.
- A maximum of 8 events will be called per summer.
- All events will last for 3 hours.
- All events will occur between 2 p.m. and 7 p.m.
- All events will occur on weekdays (not weekends), and not on holidays.
- All events will be called in June, July, August, or September.

About the Incentive

- Incentives will be paid out in October of each year.
- Incentives will be based on the customer's average curtailment amount for all events called that summer.
