Our Small Business program leads to savings.

Let us show you how.

Upstate New York

Cut your business' energy costs by up to 30% with the Small Business Services program from National Grid.

The Small Business Services program offers:

- A no-cost energy assessment of your facility's electrical equipment
- Based on the assessment, a proposal is developed with recommended energy efficiency measures
- Equipment installation at your convenience
- Removal and environmentally-friendly disposal of fluorescent lights and ballasts from your facility

Available energy efficiency equipment may include:

- Lighting upgrades and sensors
- Small gas measures
- Custom refrigeration measures
- Site specific custom projects

Ronald McDonald House Central New York Annual Energy Savings = \$6,100

With many lights out at its 42,000 square-foot facility, Ronald McDonald House Charities® of Central New York asked National Grid if they would be willing to donate light bulbs. National Grid did more than donate bulbs, they offered a no-cost energy assessment, presented ways the nonprofit could further save energy, and delivered a project that replaced 278 fluorescent fixtures and bulbs with LEDs.

The total cost of the project was \$46,813, but after National Grid incentives, the nonprofit's total cost was \$4,065. The project also saves them 56,000 kWh annually an annual cost savings of \$6,100.

To start with a no-cost energy assessment and learn about other offers,

"This incredible gift from National Grid will allow us to take these savings and reinvest them in our mission to better serve our families. At the Ronald McDonald House of Central New York, it takes many hearts to make our home. This partnership with National Grid is a perfect example of that."

— **Beth Trunfio, Executive Director of Ronald McDonald House Charities of Central New York**

Incentives and On-bill Repayment

If you decide to install the efficiency measures recommended from your on-site energy evaluation, National Grid will pay up to 60% of the installation and equipment costs.

Your share can be paid in one lump sum (and we'll discount your amount due by 10%) or, for eligible customers, your share can be placed on your monthly electric bill for up to 12 months.

Eligibility Criteria:

- National Grid business customer with a 12-month average kW demand of 250 kW or less.

Use your own contractor or ours.

Energy-efficiency upgrades may be performed by your contractor, providing they sign on under our program.

Contact our Customer Directed Option Regional Program Administrator (CDO RPA) at **844-276-7898** or **ngridsavings@trccompanies.com** to determine eligibility.
