

Instant Foodservice Rebates

Point-of-Sale Commercial Foodservice Rebates

Want to lower your energy costs? National Grid and the sponsors of Mass Save® offer instant incentives when you purchase and install qualifying natural gas or electric high-efficiency commercial foodservice equipment through a participating equipment dealer.

Why Buy High-Efficiency Equipment?

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures¹. High-efficiency equipment can decrease these energy costs by as much as 75%².

High-efficiency equipment uses less energy and water so you pay less on your utility bills.

How Do I Get the Instant Rebate?

- 1 Find a participating vendor**
Please see the listing of participating equipment dealers: ngrid.com/foodservicedealer
- 2 Choose qualified equipment**
Once you have selected qualified equipment (see list below), provide your sales representative with your active non-residential natural gas or electric account number.
- 3 Receive instant rebate on qualified equipment**
Complete a brief customer eligibility form, and the rebate will be automatically applied at the register, as a deduction from your invoice after tax. Install the equipment at your facility and enjoy the cost savings of high-efficiency equipment!

Qualified Equipment

The instant rebates! The Point-of-Sale Foodservice Initiative uses the ENERGY STAR® and/or Fishnick qualifying products list to determine the eligibility of various types, makes, and models of efficient gas-fired and electric commercial foodservice equipment.

Your participating foodservice equipment dealer can help you choose qualified equipment that will best fit your needs.

For a full list of eligible equipment models, select the corresponding equipment lists at www.energystar.gov/productfinder or fishnick.com/saveenergy/rebates/.

Qualified Product Type	Instant Rebate ³ per unit
Gas	
Combination Oven	\$1,000

Dealer Enrollment Benefits

- Rebates paid at the point-of-sale motivates the purchase of efficient, high-profit margin equipment that will save customers money and energy.
- Increase customer satisfaction with the instant rebate and minimal paperwork.
- Online system provides streamlined application submittal.

Equipment Dealer Enrollment

- Dealers who sell rebate-qualified, energy-efficient commercial foodservice equipment to non-residential Berkshire Gas, Blackstone Gas, Cape Light Compact, Columbia Gas of MA, Eversource, Liberty Utilities, National Grid (MA, RI, and NY⁴), and Until end-use customers are eligible for this program.
- By enrolling and participating in the program, dealers will gain access to resources, market information and ongoing support.

¹ Energy consumption for commercial kitchens based on ENERGY STAR study: https://www.energystar.gov/ia/business/small_business/restaurants_guide.pdf.

² Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity. Actual savings obtained in each instance may vary and will depend on various factors, including geographic location, weather conditions, equipment installed, usage rates and so forth. Completing multiple energy-saving measures will not necessarily result in cumulative savings.

³ Instant Rebate can't be combined with any other offer for the same equipment through National Grid or a participating Mass Save Sponsor.

⁴ Incentive amounts in NY may differ.
