

Electric Vehicle Charging Station Make-Ready Program

Get EV infrastructure funding for your project.

Complete your EV project and get up to 100% funding for your electrical infrastructure.

As a top dealer in your area, are you prepared to meet your customers' demand for EVs? One way is through our Upstate NY Charging Station Program. This initiative meets your dealership's need for EV charging stations. Right now, the Upstate NY Charging Station Program can provide up to 100% funding for EV charging stations electrical infrastructure.

Take advantage of this offer while you still can. With 850,000 new EVs expected on our roads by 2025, now is the time to maximize the benefits of this offer and add EV charging stations to your business.

Adding just one EV charging station can:

- Support your growing EV inventory and meet OEM mandates
- Give your dealership a competitive advantage
- Attract new and repeat EV driving customers
- Demonstrate your environmental commitment to the community

Drive more business to your dealership.
