

PURCHASE A ZERO-EMISSION TRUCK THROUGH NYTVIP WITHOUT HAVING TO SCRAP A VEHICLE FROM YOUR FLEET!

FUNDING AVAILABLE FOR CLASS 4-8 ZERO-EMISSION TRUCKS

The New York Truck Voucher Incentive Program (NYTVIP) provides up to \$185,000 in incentive funding per truck for fleets that purchase or lease medium- and heavy-duty zero-emission vehicles. However, the program requires scrappage of a similar-class diesel vehicle, model year 2009 or older, that operates at least 5000 miles annually.

Scrappable vehicles no longer have to come from your fleet! Our team will match you with a fleet ready to sell their scrappable-eligible vehicle for you to purchase, scrap, and turn into a brand new zero-emission truck without taking any of your vehicles out of operation!

NOT READY TO PURCHASE A ZERO-EMISSION TRUCK YET? TURN YOUR OLDEST VEHICLES INTO CASH!

NEGOTIATE VEHICLE SALE AND DELIVERY WITH THE FLEET

GET PAID TO ADVANCE CLEAN TRANSPORTATION IN NEW YORK!

CALSTART, New York's Clean Cities Coalitions, and the Trucking Association of New York (TANY) are working to connect fleets wanting to purchase a zero-emission truck through NYTVIP but do not have a vehicle to scrap with fleets who have scrappable-eligible vehicles they're willing to sell. Participate on either side of the program to benefit and advance healthier communities in our state!
