

Residential Electric Vehicle Charging Infrastructure Program Application

The Residential Electric Vehicle (EV) Charging Infrastructure Program ("Program") is offered to National Grid residential electric service customers ("Customer") who purchase and install a qualified Level 2 EV charger ("Smart Charger"), install a wiring upgrade AND for single family homes, enroll in National Grid's Managed Charging Program between December 30, 2022 and December 31, 2024. See ngrid.com/chargesmart-ma for more information about National Grid's Managed Charging program. The completed application must be submitted by January 31, 2025.

APPLICATION SUBMISSION CHECKLIST

When preparing to apply for the Program, please ensure all the necessary requirements have been completed and paperwork provided, including:

1. Invoice from your electrician with the following information:
 - Electrical wiring & labor cost for installation
 - Date of purchase/installation
 - Address where wiring upgrade and charging equipment was installed
2. A photo of the installed charger unit/station identifier
3. For Environmental Justice and Discount Rate (R-2) customers
 - New EVs only: submit the vehicle's Purchase and Sale Agreement
 - Used EVs only: submit the Registry of Motor Vehicles Registration and Title Application (Form TTLREG100_0123)
 - For R-2 Customers only: EV charger cost and model number

Mail the application with required documents to **National Grid Residential EV Charging Infrastructure Program, PO Box 2528, Manchester, CT 06045**

Residential Electric Vehicle Charging Infrastructure Program Application

AVAILABLE REBATES:			
Please select (X) the appropriate scenario		Single Family Home ¹	Multi-Family (2-4 units) ²
<input type="checkbox"/>	Installation of a 240-volt circuit or outlet in the garage/parking space	Up to \$700	Up to \$1,400
<input type="checkbox"/>	Installation of a 240-volt circuit or outlet in the garage/parking space located in an Environmental Justice Community ^{4,5}	Up to \$1,000	Up to \$2,000
Customers Enrolled on the National Grid Low-Income Rate (R-2) ³			
<input type="checkbox"/>	Installation of a 240-volt circuit or outlet in the garage/parking space ⁵	Up to \$1,000	Up to \$2,000
<input type="checkbox"/>	Purchase of a qualified EV Smart Charger for the garage/parking space ⁵	Up to \$700	Up to \$700

¹ For single family home customers, these rebates are provided after the applicant has successfully enrolled in National Grid's Managed Charging Program and the application and invoices have been validated. Incentives for successful enrollment in National Grid's Managed Charging Rebate will be paid separately by National Grid's Managed Charging Program vendor.

² These [2-4 unit] rebates are available when the applicant's electric account serves the garage or parking spaces in the multi-family (2-4 unit) building. Tenants or landlords of 2-4 unit buildings that are not able to enroll in managed charging because they do not own or lease an EV or that have shared parking are exempted from the managed charging enrollment requirement. The Off-Peak Charging Program is available to all customers with compatible EVs or chargers, and National Grid encourages enrollment to those able to participate to ensure customers are maximizing the benefits available to them.

³ Customers enrolled on the National Grid Low-Income Rate are eligible for rebates for both the installation of 240-volt circuit to the garage or parking space and the purchase of a qualified EV Smart Charger. Please see chart on page 4 for list of requirements for the EV Smart Charger rebate.

⁴ Use the Commonwealth's [environmental justice map viewer](#) to determine if your home is located in an Environmental Justice Community.

⁵ Applicants living in an environmental justice community or enrolled on the R-2 rate are eligible for an enhanced wiring rebate if their electric vehicle purchase/lease price is \$55,000 or less. Otherwise the wiring rebate will be up to \$700 or actual project cost, whichever is less. Applicants enrolled on the R-2 rate are only eligible for the Smart Charger rebate if their electric vehicle purchase/lease price is \$55,000 or less.

- New EVs: submit the vehicle's Purchase and Sale Agreement.
- Used EVs: submit the Registry of Motor Vehicles Registration and Title Application (Form TTLREG100_0123)

Residential Electric Vehicle Charging Infrastructure Program Application

Terms and Conditions

These terms and conditions ("Terms and Conditions") govern the Residential Electric Vehicle (EV) Charging Infrastructure Program ("Program") offered by Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid ("National Grid").

This Program is offered by National Grid to National Grid customers (as defined below) who purchased and installed a qualifying Level 2 EV charger ("Smart Charger") and/or wiring upgrade between December 30, 2022 and December 31, 2024.

The Customer must submit the application with required documentation online or via US mail postmarked by January 31, 2025. Funding for this Program is limited to the period indicated or while funds last.

APPLICATION. The application must be filled out completely and accurately. The Customer must sign the completed application and submit with the required documentation requirements listed below.

PAYMENT. Payment for complete and accurate applications are typically issued within 6-8 weeks. Questions regarding your rebate may be emailed to ask@efi.org or calling 1-800-651-3445. If the payee information is different from the account holder information, the Third Party Payee form is required. This can be accessed through the online application at <https://frontdoor.portal.poweredbyefi.org/initiative/ngridma/program/ngridmaev>. Additional time will be needed to for payee verification if this form is not provided.

APPROVAL AND VERIFICATION. Customer understands and agrees that National Grid may verify smart charger equipment installation and network connectivity before or after issuing a rebate. If Customer is a tenant, Customer represents that by agreeing to these Terms and Conditions, they have obtained the property owner's written permission to install the equipment and can provide evidence of such permission to National Grid upon request. Customer agrees to provide reasonable access to Customer's residence to inspect and verify installation and connectivity for up to one year after the date of the Application. National Grid reserves the right to verify sales transactions. National Grid does not make any warranties or representations of any kind, whether statutory, expressed, or implied for the performance or installation of the equipment as a result of the approval and verification process.

REBATE. Rebate amounts will be calculated based on the net installed cost of the wiring upgrade and smart charger, after deducting any other applicable rebates, grants, or other incentives the Customer may receive.

TAX LIABILITY. National Grid will not be responsible for any tax liability that may be imposed on the Customer resulting from the Customer receiving rebates from National Grid.

LIMITATION OF LIABILITY. National Grid's liability is limited to paying the rebates specified. National Grid is not liable for any damages arising out of or resulting from participation in this rebate offer, including but not limited to loss of profits, loss of revenues, failure to realize expected savings, loss of data, loss of business opportunity, or similar losses of any kind, as well as any indirect, incidental, punitive, special, or consequential damages, or for any damages in tort connected with or resulting from participation in this Program. Customer understands that all funding for rebates and incentives under this Program derives from National Grid ratepayers in part by approval from the Massachusetts Department of Public Utilities ("MA DPU"). National Grid does not guarantee the availability of funding for the Program and is not responsible for any costs or damages incurred by Customer if funding for this Program is reduced or eliminated by MA DPU action. Funding is subject to change at any time without notice.

CUSTOMER'S CERTIFICATION. Customer certifies that Customer has purchased the system listed on this Application and the charger was installed by a licensed contractor at the defined location. Customer agrees that all information is true and that Customer has conformed to all Program and equipment requirements listed.

WARRANTIES. NATIONAL GRID DOES NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, EXPRESSLY, IMPLICITLY OR OTHERWISE. National Grid makes no warranties or representations of any kind, whether statutory, expressed, or implied, including without limitations, warranties of merchantability or fitness for a particular purpose regarding the equipment or services provided by a manufacturer, contractor or vendor. National Grid shall not be responsible for costs or corrections of conditions already existing in the property which fail to comply with applicable laws and regulations. National Grid does not endorse any particular manufacturer, contractor, vendor, product, retailer or system design in connection with this Program. Contact your retailer, manufacturer, vendor or contractor for details regarding equipment performance and warranties.

ELIGIBILITY REQUIREMENTS FOR REBATES.

General Requirements

To be eligible to participate in the Program:

- Customers must be either an existing residential National Grid customer with an active electric account (e.g., R-1 rate) ("Residential Customer") or an existing commercial National Grid customer with an active electric account (e.g., G-1 rate) that serves a multifamily home with two to four units on the property ("Commercial Customer").
- Customers must be either a National Grid Massachusetts Electric Company or Nantucket Electric Customer ("Customer").
- Customers must reside in a single-family home or a multifamily home with four or fewer units on the property.
- Customers must own or lease a plug-in hybrid electric vehicle or a battery electric vehicle or demonstrate being in the process of owning or leasing a plug-in hybrid electric vehicle or a battery electric vehicle.
- Customers must remain enrolled in National Grid's Off-Peak Charging Rebate Program ("Managed Charging Program") for a period of not less than twelve months from the date the application has been approved.

Residential Electric Vehicle Charging Infrastructure Program Application

Smart Charger Requirements

- National Grid will pay the rebate listed on the current application or the total purchase price, whichever is less, to a Customer who meets the eligibility requirements hereunder, including a Customer completing the enrollment process for the Managed Charging Programs.
- Only customers enrolled on the National Grid low-income discount rate (R-2) are eligible for the Smart Charger rebate.
- Customers are limited to one Smart Charger Rebate per electric account.

** EV SMART CHARGER REQUIREMENTS (AVAILABLE TO R-2 RATE CODE ONLY)	
Single Family Home connected to the Off Peak Charging Program through vehicle	EVSE must be listed on the State Appliance Standards Database for Massachusetts (MA)
Single Family Home connected to the Off Peak Charging Program through Smart Charger (EV is not compatible with Off Peak Charging Program)	Eligible EVSE Models: ChargePoint HomeFlex Charger, Enel X JuiceBox Model Numbers: 2JBO401RNA-PJWX-200, 2JBO481RNA-HBWX-200, 2JBX481AJ-001, 2JBX401AJ, 2JBX801AJ, 2JBX801AJ-001 Wallbox Pulsar Plus
2-4 Unit Home	EVSE must be listed on the State Appliance Standards Database for Massachusetts (MA)
Check www.nationalgridus.com/Residential-EV-Charging-Infrastructure-Program for the latest listing.	

Wiring Upgrade Requirements

- National Grid will pay the Wiring Upgrade Rebate listed on the current application or the total amount paid for qualifying expenses, whichever is less, to a Customer meeting the applicable eligibility requirements hereunder, including a Customer completing the enrollment process for the Managed Charging Program.
- Newly constructed homes located in municipalities that have adopted the Board of Building Regulations and Standards Stretch Code are not eligible for Wiring Upgrade Rebates.
- Customers are limited to one Wiring Upgrade Rebate per electric account.
- Qualifying expenses for the wiring upgrade rebate are the labor, materials, and applicable permitting costs to install a 208 Volt or 240 Volt electrical circuit of 30 Amps or more to a location suitable for electric vehicle charging.
- Electrical work must be completed by a licensed qualified professional electrician, in full compliance with all state and federal laws and regulations.

REQUIRED DOCUMENTATION.

Smart Charger Rebate

- The Smart Charger receipt or invoice must be marked as paid and include the Smart Charger manufacturer, model name, serial number, and purchase price.
- A photo of the Smart Charger installed at the service address is required.

Wiring Upgrade Rebate

- An invoice must be marked as paid showing the installation address, the contractor's name, license number and address, the date the work was completed, and the cost of labor and materials.
- A photo of the location served by the new electrical circuit is required.

ELIGIBILITY REQUIREMENTS FOR THE MANAGED CHARGING PROGRAM.

To be eligible to receive a Smart Charger Rebate and/or Wiring Upgrade Rebate, the Customer agrees to enroll in a Managed Charging Program. Please see <https://www.nationalgridus.com/Charge-Smart-MA> for the Managed Charging Program eligibility requirements, program details including the QPL and Managed Charging Program incentives.

Managed Charging Program Participation Timeline and Withdrawal

- A Customer may unenroll from the Managed Charging Program without penalty after participating for a minimum of 12 months from the date of initial enrollment.
- If a Customer unenrolls prior to completing the 12 months of participation the Customer will be required to pay back a prorated portion of the Smart Charger Rebate and/or Wiring Upgrade Rebate. Exceptions may be granted at National Grid's sole discretion.
- If the Customer moves to a different residence within National Grid service territory, the Customer may continue to participate in the Managed Charging Program if the new residence meets the eligibility requirements in these Terms and Conditions. The Customer must communicate any change of address to the Program.
- A Customer moving outside of National Grid's territory before participating for a minimum of 12 months in the Managed Charging Program shall be an approved reason for unenrolling and ending participation in the Managed Charging Program.

Managed Charging Program Information Sharing

The Customer authorizes National Grid and its vendor administering the Program to share the Customer's National Grid Account number and application information with the vendors administering National Grid's Managed Charging Program. This may include, but not be limited to, electric account information, service address, name and other information required to identify the Customer applying to the Program and confirming the Customer's enrollment in the Managed Charging Program.
