 - Discount amount not signed negative. Miriam researched and has been advised this is not a simple fix and can't be done at this time
 - Discount rate not matching published rates - Calpine
 - Eversource/PSNH
 - ESG working on deploying updated logic and processing
 - Decimal places for monetary amounts on line items round to 2 places.
 - We are following the same process that was in place for WMA, which had 4 to 5 decimal places in the detail files. New Hampshire has two discount rates unlike Connecticut which one discount rate. Like WMECO before conversion the discount rate was applied across by account to the 5th decimal place. If we round the payment detail files, the payments will not match.
 - Request to discontinue excel and use EDI 820.

 - Monthly meetings or regular meetings, any update on that? From July DPU. (Tiffany Williams - Engie). Daryush: working on communication plan either a meeting or email.

 - Bi-weekly meetings for updates. Next week
 - ICAP missing tags - working on data repair
