NATIONAL GRID¹ CONDUIT OCCUPANCY PROCESS

Third Party Instructions

¹ Niagara Mohawk Power Corporation, d.b.a. National Grid. The National Grid companies include: Granite State Electric, Massachusetts Electric Co., Nantucket Electric Co., National Grid USA Service Co. Inc., New England Power Co., Niagara Mohawk Power Corp., and The Narragansett Electric Co.

New York Conduit Occupancy Process

- Third Party Instructions -

These instructions outline the series of steps an Applicant must take to apply for and receive a license for occupancy to the National Grid Conduit System. All forms and rates are obtained from the Company's website <http://www.nationalgridus.com/niagaramohawk/attachments/index.asp>, or by selecting the appropriate link in this document.

1.) Conduit Occupancy Agreement

a) Prior to submitting a conduit occupancy application request and prior to any occupancy to National Grid owned conduit system, all Applicants must become signatory to National Grid's Standard Conduit Occupancy Agreement ("Agreement").

2.) Application for Conduit Occupancy

a) Once the Agreement has been executed, the Applicant shall submit a complete Application for Conduit Occupancy to the Telecommunications Attachment Group "TAG" (Attachment 1 & Exhibit B). TAG will review the application for completeness and notify the Applicant of any deficiencies. An Application Fee, as stated on the latest Service Work Rate Summary Sheet (see Section 6 below for instructions) will be invoiced to the Applicant.

b) For design work by National Grid, TAG will invoice the Applicant a Preliminary Route Review Fee in the amount as stated on the latest Service Work Rate Summary Sheet.

c) No further processing of the attachment application will occur until payments are received.

d) Upon receipt of the above payments, National Grid (TAG) will assign responsibility for the conduit occupancy survey and design work to the National Grid Distribution Design Department. National Grid (TAG) will advise the Applicant of such work assignments, provide the National Grid Work Request (WR#), and National Grid contact information.

e) Work performed by National Grid personnel shall be invoiced at the National Grid rate(s) in effect at the time of invoicing. National Grid service and make-ready rates may be revised once every twelve (12) months.

3.) Make-Ready Work

a) Required make-ready work identified from the pre-construction survey and its associated design work will be reviewed by National Grid for acceptance. Upon acceptance of such work National Grid will assign the make-ready work. Make-ready work may be assigned to (i) National Grid Field Operations, or (ii) a National Grid underground Contractor, or (iii) the Applicant. If assigned to the Applicant, the Applicant shall utilize an electrical qualified underground Contractor acceptable to National Grid. TAG will advise the Applicant of such work assignments.

b) For make-ready work assigned to National Grid or National Grid's Contractor, National Grid will invoice the Applicant for all associated make-ready work. The Applicant should send payment along with the detachable portion of the invoice as noted below. Advance payment shall be received prior National Grid commencing required make-ready work (see Section 6 below).

c) For make-ready work assigned to the Applicant, please refer to the "Conduit Policy Third Party Attachment Requirements for Applicants".

d) Make-ready work will be scheduled and performed by National Grid in the order received. National Grid will endeavor to perform make-ready work in the sequence established by the Applicant. If the Applicant does not specify a sequence of completion for the make-ready work, such sequence of work completion will be determined by National Grid. Refer to the Requirements for National Grid Contractor management and oversight.

e) Upon completion of the required make-ready work by National Grid or its Contractor, National Grid will forward a "Notice of Make-Ready Completion" to the Applicant. If the Applicant's Contractor performs the required make-ready work, the Applicant shall provide a notice of completion to TAG.

f) National Grid will forward a License for attachment to the Applicant. All Licenses shall be signed by both the Applicant and National Grid.

4.) Construction Oversight, As-Built Drawings, and Post Construction Inspection of Conduit Occupants

a) Updating of National Grid documents to As-Built conditions will be required. As-Built document updates will be performed at posted National Grid Third Party Underground Service Work Rate Summary Sheet. TAG will provide the Licensee (Applicant) of National Grid's associated cost.

b) National Grid will perform construction inspections of Licensee and/or Licensee's Contractor. TAG will provide the Licensee (Applicant) of National Grid's associated cost.

c) National Grid may elect to perform a post construction inspection of Licensee attachments. In the event National Grid decides to perform a post construction inspection, TAG will advise the Licensee (Applicant) of National Grid's decision and the cost thereof.

5.) Contact Information
