

PUBLIC STATEMENT HEARINGS TO BE HELD IN PSC CASES 20-E-0380,
20-G-0381, 19-M-0133 - NIAGARA MOHAWK POWER CORPORATION d/b/a
NATIONAL GRID FOR ELECTRIC AND GAS SERVICE

On September 27, 2021, Niagara Mohawk filed a Joint Proposal with the New York State Public Service Commission (Commission) seeking approval to increase their annual electric and gas delivery revenues over three years. In addition to Niagara Mohawk, the Joint Proposal was signed by several other parties to the proceedings. The Joint Proposal incorporates three-year rate plans for Niagara Mohawk's electric and gas delivery businesses covering the period July 1, 2021 through June 30, 2024, with Rate Years 1, 2 and 3 consisting of the twelve-month periods ending on June 30, 2022, 2023 and 2024, respectively. Under the terms of the Joint Proposal, after adjustments to reflect rate compression in Rate Year 1, offsets with deferred credits and reductions in gross receipts tax, annual delivery revenues would increase by 1.4% for electric and 1.8% for gas in Rate Year 1 and by 1.9% for electric and gas in Rate Years 2 and 3. To achieve those percentage amounts over the term of the rate plan, Niagara Mohawk will amortize approximately \$145.90 million in deferred credits attributable to its electric business and \$40.57 million in deferred credits attributable to its gas business. The actual bill impacts of the Joint Proposal on any particular customer class will vary based upon revenue allocation and rate design.
