

KEDNY/KEDLI CLCPA Study

Meeting #1 Draft Scoping Plan

July 13, 2022

nationalgrid

Agenda for Today's Meeting

- Overview of CLCPA Study commitment from Joint Proposal
- Introduction of the Guidehouse team
- Discuss stakeholder process and how to provide feedback
- Review Draft Scoping Plan
- Stakeholder comments and questions

Overview of CLCPA Study – Key Elements and Deliverables

- The KEDNY/KEDLI Joint Proposal provides that the Companies will develop a CLCPA Study that “**evaluates how the Companies’ businesses may evolve in the future to support the emission reduction and renewable energy goals of the CLCPA, NYC’s Local Law 97, and any emission reduction goals the Companies have independently adopted.**”
- The Joint Proposal requires that the study will:
 - provide an analysis of the **scale, timing, costs**, and **customer bill impacts** of achieving significant, quantifiable reductions in carbon emissions from the use of gas delivered by the Companies in their service territories.
 - provide further analysis on the **projects and programs needed** to achieve specific decarbonization goals (e.g., 85% CO₂e reductions by 2050). “

Additional required parameters include:

- An assessment of **potential CO₂e reductions** per year, **MMBTU reductions** in billed annual usage, and the **numbers of customers** heating with gas in residential, commercial and industrial classes per year under different scenarios.
- A **pathways analysis** will identify **potential barriers** to achieving the targeted carbon emission reductions and recommended solutions.
- The Companies will respond to any **findings or guidance of the New York State Climate Action Council (“CAC”)** in the CLCPA Study.
- In their next rate filings, the Companies will detail investments, programs, and initiatives that have been added, altered, or removed to achieve the objectives detailed in the CLCPA Study.

Introduction of the Guidehouse Team and Draft Scoping Plan

National Grid has selected Guidehouse to support this project

- Deep expertise in decarbonization pathways, gas utility regulatory issues, and demand-side programs
- Comprehensive and well-designed workplan fully responsive to Company needs and within budget
- Extensive experience in NY

Today, Guidehouse will provide an overview of the Draft Scoping Plan for this work.

- Overview of modeling approach
- Discussion of scenarios
- Overview of planned report content

Your feedback on key elements of Draft Scoping Plan will help to inform the final analysis and report.

CLCPA Study Stakeholder Process

- Feedback from stakeholders will be essential to developing a robust study
- In line with the commitments outlined in the Joint Proposal, the Companies have developed the following stakeholder outreach schedule

Date	Topic
Today	Draft Scoping Plan
Early August	Decarbonization Scenarios and Assumptions
September TBD	Draft Study Results
November TBD	Draft Report

- To facilitate stakeholder review, meeting materials to be made available in advance via filing with the PSC and company website Stakeholders may comment orally during meetings and/or in written comments via PSC website.
 - Before each stakeholder meeting, the Companies will provide stakeholders with timelines for comment to ensure that that input can be reflected in analysis.
- Stakeholder comments will be tracked and addressed at subsequent meetings as applicable and in draft and final reports
- National Grid will post study information, stakeholder presentations, schedule, and draft and final reports on its website.

We want to hear from you
