## LIGHT Incentive Program

nationalgrid

Measure Code	Measure Description	Incentive (per unit)	Measure Requirements	Maximums*
<b>Tier 1 Measures &amp; Incentives DLC Premium Classification</b>				
88UBP	LED Interior 1x4 and 2x2 Luminaires or Integrated Retrofit Kits ( <b>No integrated control</b> )	\$20	LED interior 1x4 and 2x2 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Premium</b> Classification and must have the DLC primary use designation of 1x4 or 2x2 Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 1x4 or 2x2.	250 units per National Grid Commercial Rate Customers Individual Purchase Order
88UCP	LED Interior 2x4 Luminaires or Integrated Retrofit Kits ( <b>No integrated control</b> )	\$30	LED Interior 2x4 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of 2x4 Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 2x4.	250 units per National Grid Commercial Rate Customers Individual Purchase Order
89UAP	LED Direct Linear Ambient Luminaires or Retrofit kits - ≤ 4 ft - Mounted < 10 ft. above floor ( <b>No integrated control</b> )	\$15	LED direct linear ambient luminaires or retrofit kits ≤ 4 ft must be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor.	100 units per National Grid Commercial Rate Customers Individual Purchase Order
89UBP	LED Direct Linear Ambient Luminaires or Retrofit Kits - > 4 ft - Mounted < 10 ft. above floor ( <b>No integrated control</b> )	\$30	LED direct linear ambient luminaires or retrofit kits >4 ft must be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor.	100 units per National Grid Commercial Rate Customers Individual Purchase Order
86UAP	LED Interior Low-Bay Luminaires or Retrofit Kits (5,000 - 10,000 lumens) - Mounted 10 - 20 ft. above floor ( <b>No integrated control</b> )	\$50	LED interior low-bay luminaires or retrofit kits from 5,000 - 10,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of Low-Bay Luminaires or Retrofit Kits for Low-Bay Luminaires for commercial and industrial buildings. Mounted 10 - 20 ft. above floor.	100 units per National Grid Commercial Rate Customers Individual Purchase Order
86UBP	LED Interior High-Bay Luminaires or Retrofit Kits (10,001 - 20,000 lumens) - Mounted > 20 ft. above floor ( <b>No integrated control</b> )	\$80	LED interior high-bay luminaires or retrofit kits from 10,001 - 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of High-Bay Luminaires, High-Bay Aisle Luminaires, or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor.	250 units per National Grid Commercial Rate Customers Individual Purchase Order
86UCP	LED Interior High-Bay Luminaires or Retrofit Kits (> 20,000 lumens) Mounted > 20 ft. above floor ( <b>No integrated control</b> )	\$110	LED interior high-bay luminaires or retrofit kits greater than 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of High-Bay Luminaires or High-Bay Aisle Luminaires or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor.	250 units per National Grid Commercial Rate Customers Individual Purchase Order
93UP	LED Bi-Level Stairwell & Corridor Luminaires ( <b>dimming control</b> )	\$50	LED bi-level stairwell & corridor luminaires must be listed by the DesignLights Consortium® with <b>Standard or Premium</b> classification and must have the DLC primary use designation of Stairwell & Passageway Luminaires under Outdoor Luminaires category. <b>Must have an integrated control that dims light output by at least 50% when area is unoccupied.</b>	100 units per National Grid Commercial Rate Customers Individual Purchase Order
87UAP	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>LOW OUTPUT</b> ( <b>dusk to dawn operation</b> )	\$60	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Low Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation.</b>	50 units per National Grid Commercial Rate Customers Individual Purchase Order
87UBP	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>MID OUTPUT</b> ( <b>dusk to dawn operation</b> )	\$100	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Mid Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation.</b>	50 units per National Grid Commercial Rate Customers Individual Purchase Order
87UCP	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>HIGH OR VERY HIGH OUTPUT</b> ( <b>dusk to dawn operation</b> )	\$185	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of High or Very High Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation.</b>	50 units per National Grid Commercial Rate Customers Individual Purchase Order

# ON THE SPOT LIGHT Incentive Program

**nationalgrid**

Measure Code	Measure Description	Incentive (per unit)	Measure Requirements	Maximums*
<b>Tier 2 Measures &amp; Incentives - DLC Standard OR Premium Classification With Controls</b>				
88UBC	LED Interior 1x4 and 2x2 Luminaires or Integrated Retrofit Kits - Standard Classification <b>with Integrated Control</b>	\$20	LED interior 1x4 and 2x2 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must have the DLC primary use designation of Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 1x4 or 2x2. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	250 units per National Grid Commercial Rate Customers Individual Purchase Order
88UBPC	LED Interior 1x4 and 2x2 Luminaires or Integrated Retrofit Kits Premium Classification <b>with Integrated Control</b>	\$30	LED interior 1x4 and 2x2 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 1x4 or 2x2. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	250 units per National Grid Commercial Rate Customers Individual Purchase Order
88UCC	LED Interior 2x4 Luminaires or Integrated Retrofit Kits - Standard Classification <b>with Integrated Control</b>	\$30	LED interior 2x4 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must have the DLC primary use designation of Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 2x4. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	250 units per National Grid Commercial Rate Customers Individual Purchase Order
88UCPC	LED Interior 2x4 Luminaires or Integrated Retrofit Kits - Premium Classification <b>with Integrated Control</b>	\$40	LED interior 2x4 luminaires or integrated retrofit kits are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of Luminaire for Ambient Lighting of Interior Commercial Spaces or Integrated Retrofit Kits for 2x4. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	250 units per National Grid Commercial Rate Customers Individual Purchase Order
89UAC	LED Direct Linear Ambient Luminaires ≤ 4 ft. - Standard Classification Mounted < 10 ft. above floor <b>with Integrated Control</b>	\$15	LED Direct Linear Ambient Fixtures ≤ 4 ft must be listed by the DesignLights Consortium® with <b>Standard</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
89UAPC	LED Direct Linear Ambient Luminaires ≤ 4 ft. - Premium Classification Mounted < 10 ft. above floor <b>with Integrated Control</b>	\$25	LED Direct Linear Ambient Luminaires ≤ 4 ft must be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
89UBC	LED Direct Linear Ambient Luminaires > 4 ft. - Standard Classification Mounted < 10 ft. above floor <b>with Integrated Control</b>	\$30	LED Direct Linear Ambient Luminaires >4 ft must be listed by the DesignLights Consortium® with <b>Standard</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
89UBPC	LED Direct Linear Ambient Luminaires > 4 ft. - Premium Classification Mounted < 10 ft. above floor <b>with Integrated Control</b>	\$40	LED Direct Linear Ambient Luminaires >4 ft must be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Linear Ambient under Indoor Luminaires. Mounted < 10 ft. above floor. <b>Must have integral luminaire mounted dual sensor with motion and photocell/ambient light sensor. System will control motion response and illumination levels.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
86UAC	LED Interior Low-Bay Luminaires or Retrofit Kits (5,000 - 10,000 lumens) - Standard Classification Mounted 10 - 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$65	LED interior low bay luminaires or retrofit kits from 5,000 - 10,000 lumens are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must have the DLC primary use designation of Low-Bay Luminaires or Retrofit Kit for Low-Bay Luminaires for commercial and industrial buildings. Mounted 10 - 20 ft. above floor. <b>Must have integral luminaire mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
86UAPC	LED Interior Low-Bay Luminaires or Retrofit Kits (5,000 - 10,000 lumens) - Premium Classification Mounted 10 - 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$80	LED interior low bay luminaires or retrofit kits from 5,000 - 10,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of Low-Bay Luminaires or Retrofit Kit for Low-Bay Luminaires for commercial and industrial buildings. Mounted 10 - 20 ft. above floor. <b>Must have integral luminaire mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
86UBC	LED Interior High-Bay Luminaires or Retrofit Kits (10,001 - 20,000 lumens) - Standard Classification Mounted > 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$90	LED interior high-bay luminaires or retrofit kits from 10,001 - 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must have the DLC primary use designation of High-Bay Luminaires, High-Bay Aisle Luminaires, or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor. <b>Must have integral fixture mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
86UBPC	LED Interior High-Bay Luminaires or Retrofit Kits (10,001 - 20,000 lumens) - Premium Classification Mounted > 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$105	LED interior high-bay luminaires or retrofit kits from 10,001 - 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of High-Bay Luminaires, High-Bay Aisle Luminaires, or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor. <b>Must have integral fixture mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
86UCC	LED Interior High-Bay Luminaires or Retrofit Kits (> 20,000 lumens) - Standard Classification Mounted > 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$120	LED interior high-bay luminaires or retrofit kits greater than 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must have the DLC primary use designation of High-Bay Luminaires or High-Bay Aisle Luminaires or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor. <b>Must have integral fixture mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order

# ON THE SPOT LIGHT Incentive Program

**nationalgrid**

Measure Code	Measure Description	Incentive (per unit)	Measure Requirements	Maximums*
86UCPC	LED Interior High-Bay Luminaires or Retrofit Kits (> 20,000 lumens) - Premium Classification Mounted > 20 ft. above floor <b>with Integrated Occupancy Sensor</b>	\$135	LED interior high-bay luminaires or retrofit kits greater than 20,000 lumens are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must have the DLC primary use designation of High-Bay Luminaires or High-Bay Aisle Luminaires or Retrofit Kits for High-Bay Luminaires for commercial and industrial buildings. Mounted > 20 ft. above floor. <b>Must have integral fixture mounted sensor to sense motion and turn lights off when not detected after a set time.</b>	200 units per National Grid Commercial Rate Customers Individual Purchase Order
87UAC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>LOW OUTPUT</b> - Standard Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$60	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Low Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order
87UAPC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>LOW OUTPUT</b> - Premium Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$80	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Low Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order
87UBC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>MID OUTPUT</b> - Standard Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$100	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Mid Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order
87UBPC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>MID OUTPUT</b> - Premium Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$120	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of Mid Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order
87UCC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>HIGH OR VERY HIGH OUTPUT</b> - Standard Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$185	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Standard</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of High or Very High Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order
87UCPC	LED Exterior Wall/Pole/Arm Mounted Area and Flood Luminaires <b>HIGH OR VERY HIGH OUTPUT</b> - Premium Classification <b>with Dimming Control (dusk to dawn operation)</b>	\$205	LED exterior wall/pole/arm mounted area or flood luminaires are required to be listed by the DesignLights Consortium® with <b>Premium</b> classification and must be listed in the DLC category of Outdoor Luminaire with the general application of High or Very High Output. <b>Must be equipped with a photosensor to turn lights off when enough daylight is available or installed with a time clock with dusk to dawn operation. Automatic dimming controls installed in each luminaire to adjust light levels from programmed settings or occupancy.</b>	150 units per National Grid Commercial Rate Customers Individual Purchase Order

\* If quantities exceed maximums listed please send an email to [OntheSpotLight@nationalgrid.com](mailto:OntheSpotLight@nationalgrid.com) to determine if customers project should be incentivized through another program.

Notes:

1. A minimum customer contribution is required for all fixtures sold through this On the Spot Light Incentive Program.
2. Only commercially electric metered locations that pay the System Benefit Charge in National Grid's Upstate NY service territory qualify for incentives.
3. Equipment purchased through this program must be installed and operational within National Grid's Upstate NY service territory.
4. Equipment must be installed and operational within 30 days of purchase and subject to inspection by National Grid.
