### NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 16-34

April 4, 2016

Petition of Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid, for Approval of its Renewable Energy Recovery Factor, for effect May 1, 2016 through October 31, 2016.

---

On March 17, 2016, Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid (together "National Grid" or "Company"), filed with the Department of Public Utilities ("Department") its proposed renewable energy recovery factor ("RERF"), for effect May 1, 2016 through October 31, 2016. This filing was made pursuant to Fitchburg Gas and Electric Light Company d/b/a Unitil, et al., D.P.U. 13-146/13-147/13-148/13-149 (2014) and the Company's Renewable Energy Recovery Provision ("RERP") tariff, M.D.P.U. No. 1235. Under the RERP tariff, the Company's distribution rates are subject to adjustment to reflect the recovery of payments under the Company's long term renewable energy contracts executed pursuant to § 83A of the Green Communities Act, St. 2008, c. 169, as amended by St. 2012, c. 209, § 36, along with contract remuneration associated with payments made under such contracts. The Department docketed the Company's petition as D.P.U. 16-34.

The Company proposes a RERF of \$0.00012 per kilowatt-hour ("kWh") for all rate classes for effect May 1, 2016 through October 31, 2016. If the Department approves the proposed RERF, the average National Grid basic service residential customer (R-1) using 600 kWh of electricity per month will experience a monthly bill increase of \$0.07, or approximately 0.1 percent. The Company states that the bill impact for all other customers on basic service will be 0.1 percent or lower. For specific bill impacts, please contact the Company as indicated below.
