DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING AND PUBLIC HEARING

D.P.U. 22-61

Corrected: May 26, 2022

Petition of Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid, for approval by the Department of Public Utilities of the Company's Shutesbury capital investment project proposal under the Provisional Program established by the Department in Provisional System Planning Program, D.P.U. 20-75-B (2021).

On May 12, 2022, Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid ("National Grid" or "Company") submitted to the Department of Public Utilities ("Department") for review and approval of a capital investment project ("CIP") proposal. The Department docketed this matter as D.P.U. 22-61.

Currently, if a distributed generation ("DG") facility, such as a solar facility, requires an electric distribution company ("EDC") (e.g., National Grid) to upgrade the electric power system ("EPS") for the DG facility to interconnect with the EPS, the DG facility is responsible for the full cost of that upgrade. In Provisional System Planning Program, D.P.U. 20-75-B (2021), the Department established a new, provisional framework for planning and funding these upgrades to the EPS through an alternative method ("Provisional Program"). Under the Provisional Program, the costs of the EPS upgrade (the CIP) would be shared by the interconnecting DG facilities and all ratepayers of the EDC. While ratepayers will initially pay the costs of the CIP through a charge on their electric bills, each DG facility that is able to interconnect due to the upgrade to the EPS will pay a pro rata share of the costs of the CIP. Costs collected from those DG facilities will be returned to ratepayers through a credit on their electric bill through a reconciliation mechanism. D.P.U. 20-75-B at n.36. The requirements for the Provisional Program, including cost allocation, are discussed in the Department's Order establishing the program, D.P.U. 20-75-B. The Provisional Program is intended to foster timely and cost-effective development and interconnection of DG facilities.

Here, the Company's CIP proposal is designed to make EPS modifications to allow DG facilities to interconnect in and around Shutesbury, MA. The CIP proposal includes upgrades to one substation located in Shutesbury, MA. The EPS upgrades and impacted area are discussed in the Shutesbury Group Study (Exh. NG-1, at 11-12). The Company projects the total cost to complete the system modifications under its CIP proposal to be approximately \$16.5 million and that the CIP will enable 30,000 kilowatts ("kW") of DG

(Exh. NG-1, at 18-20). Of the total cost, the Company proposes \$12,543,820 be paid by interconnecting DG facilities through a \$481.14/kW CIP fee and for the remainder, \$3,958,183, to be borne by ratepayers (Exh. NG-4). The portion of CIP costs paid by ratepayers will increase rates. A typical residential customer using on average 600 kWh per month would experience a monthly bill increase of \$0.02 (Exh. NG-1, at 50).

Additionally, this filing concerns infrastructure upgrades that if approved would be constructed in or near environmental justice communities. Environmental justice is a priority for the Department, and it will be an integral consideration throughout our investigation. We encourage any interested stakeholder to provide comment on how this filing could affect an environmental justice community if approved.

On May 18, 2022, the Attorney General of the Commonwealth (“Attorney General”) filed a notice of intervention pursuant to G.L. c. 12, § 11E(a). The Attorney General has the right to represent and advocate on behalf of ratepayers in proceedings involving changes in EDCs’ rates, prices, or tariffs. Pursuant to G.L. c. 12, § 11E(b), the Attorney General filed a notice of retention of experts and consultants to assist in her investigation of the Company’s filing. The Attorney General has requested Department approval to spend up to \$150,000. Pursuant to G.L. c. 12, § 11E(b), the costs incurred by the Attorney General relative to her retention of experts and consultants are charged to the Company and may be recovered by the Company in its rates. These costs are collected through a charge known as the Attorney General Consultant Expenses Adjustment Factor (AGCE).
