NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 24-31

March 19, 2024

Petition of Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid, for Approval of their 2024 Energy Efficiency Reconciling Factors for effect May 1, 2024.

On March 1, 2024, Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid (together, “Companies”), filed with the Department of Public Utilities (“Department”) a petition seeking approval of their 2024 Energy Efficiency Reconciling Factors (“EERFs”), effective May 1, 2024. The Department docketed the Companies’ petition as D.P.U. 24-31.

An EERF collects additional funds for approved energy efficiency programs when the cost of implementing those programs exceeds other funding sources. See G.L. c. 25, § 19(a). The Companies propose the following EERFs for effect May 1, 2024: (1) 3.164 cents per kilowatt-hour (“kWh”) for residential customers; (2) 0.497 cents per kWh for low-income residential customers; and (3) 0.734 cents per kWh for commercial and industrial (“C&I”) customers. The proposed EERFs are designed to: (1) collect costs associated with the Companies’ 2024 energy efficiency program implementation in excess of other funding sources; and (2) reconcile expenses and revenues from the previous year’s program implementation.

If the Department approves the 2024 EERFs as proposed, a residential customer (R-1) using 600 kWh of electricity per month will experience a monthly bill increase of \$4.61 (or approximately 2.1 percent). A low-income residential (R-2) customer using 600 kWh of electricity per month will experience a monthly bill increase of \$0.79 (or approximately 0.6 percent). C&I customers will experience a monthly bill decrease ranging from 0.8 percent to 1.8 percent. For specific bill impacts, please contact the Companies as shown below.
