November 30, 2018

Petition of Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid, for recovery of incremental operations and maintenance expenses associated with qualifying weather events that occurred between 2013 and 2016.

On November 14, 2018, Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid ("Companies") filed a petition with the Department of Public Utilities ("Department") for recovery of approximately \$44.4 million in storm-related preparation and response costs, excluding the Companies' deductibles of \$13.75 million and carrying charges, associated with eleven storm events that occurred between 2013 and 2016 ("Storm Events"). The Department has docketed this matter as D.P.U. 18-153.

The Companies request that the Department approve its recovery of the incremental operations and maintenance expenses from the Storm Events. The Companies state that the incremental costs associated with the Storm Events are recoverable pursuant to the storm recovery mechanism approved in Massachusetts Electric Company and Nantucket Electric Company, D.P.U. 09-39 (2009). The Companies also request that the Department approve a revision to its Storm Fund Recovery Factor ("SFRF") tariff, M.D.P.U. 1302, that would extend the effective period of the SFRF from August 31, 2019, to September 30, 2019, pending the outcome of its base rate case proceeding filed on November 15, 2018. See Massachusetts Electric Company and Nantucket Electric Company, D.P.U. 18-150.

Pursuant to G.L. c. 12, § 11E(b), the costs incurred by the Attorney General relative to her retention of experts and consultants may be recovered in the Companies' rates.
