DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 20-68

July 21, 2020

Petition of Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid, for review and approval by the Department of Public Utilities of the Companies' Performance-Based Ratemaking Plan for effect October 1, 2020.

On June 15, 2020, Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid (together, "Company"), filed its first annual Performance-Based Ratemaking ("PBR") Plan submission with the Department of Public Utilities ("Department") seeking approval to recover the increase in base distribution revenue requirement associated with its PBR Mechanism through the proposed Performance Based Ratemaking Adjustment ("PBRA") for effect October 1, 2020. This filing was made pursuant to Massachusetts Electric Company and Nantucket Electric Company, D.P.U. 18-150 (2019) and the Company's PBR tariff, M.D.P.U. No. 1423. The Department has docketed this petition as D.P.U. 20-68.

The Company proposes an increase in base distribution revenue of approximately \$25.7 million in conjunction with its proposed PBRA. The Company also proposes an increase in base distribution revenue of approximately \$20.4 million associated with its Capital Expenditure Factors ("CapEx Factors"). The Company proposes the following charges for effect October 1, 2020:

Rate Class	Proposed Adjusted Rate (\$/kWh)
R-1 and R-2	0.04906
G-1	0.04325
G-2	0.00213
G-3	0.00175
Streetlighting	0.04538

The Company states that, at the time of the increase in base distribution rates resulting from these adjustments, the currently effective CapEx Factors that are recovering revenue requirement associated with calendar year 2018 capital investment will terminate with usage on and after October 1, 2020, pursuant to Massachusetts Electric Company and Nantucket Electric

Company, D.P.U. 19-81, Phase I (February 28, 2020) and the Company's Capital Investment Recovery tariff, M.D.P.U. No. 1417.

If the Department approves the Company's proposed rate changes for effect October 1, 2020, a typical Massachusetts Electric Company residential basic service customer with a typical usage of 600 kilowatt-hours ("kWh") of electricity per month would experience a monthly bill decrease of \$0.52 or 0.4 percent, from \$144.22 to \$143.70, as compared to current rates. For a typical Nantucket Electric Company residential basic service customer with a typical usage of 600 kWh of electricity per month, the proposed charges for effect October 1, 2020 would result in a monthly bill decrease of \$0.52 as compared to current rates, or 0.4 percent, from \$146.97 to \$146.45. The Company states that the bill impacts over current rates for all customers range from a decrease of 8.3 percent to an increase of 5.6 percent, depending on rate class and usage. For specific bill impacts, contact the Company as shown below.
