NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 23-17

February 3, 2023

Petition of Boston Gas Company d/b/a National Grid for approval of its Revenue Decoupling Adjustment Factors for the 2023 Off-Peak Period, May 1, 2023, through October 31, 2023.

On January 27, 2023, Boston Gas Company d/b/a National Grid (“Company”) filed a petition with the Department of Public Utilities (“Department”) for approval of its revenue decoupling adjustment factors (“RDAFs”), for effect May 1, 2023. This filing was made pursuant to: Boston Gas Company and Colonial Gas Company, D.P.U. 17-170 (2018); Boston Gas Company, D.P.U. 20-120 (2021); and the Company’s revenue decoupling adjustment clause (“RDAC”) tariff, M.D.P.U. No. 62.3. In 2008, the Department developed revenue decoupling by establishing a mechanism through the RDAC that allows the Company to modify, on a semi-annual basis, its base distribution rates as a result of changes in customer usage. Revenue decoupling severs the link between sales and revenues, and instead provides gas and electric utility companies with a target revenue level, thus removing the disincentive of implementation of energy efficiency and demand reduction programs that encourage customers to lower energy usage and demand. See generally Revenue Decoupling, D.P.U. 07-50-A (2008); see also Boston Gas Company/Essex Gas Company/Colonial Gas Company, D.P.U. 10-55, at 40-42 (2010). The Department has docketed this petition as D.P.U. 23-17.

The Company proposes the following charges for Boston Gas Company and the former Colonial Gas Company customers, effective May 1, 2023, through October 31, 2023:

Boston Gas Company	
Customer Class	RDAF charges (\$ per therm)
Residential	\$0.0307
Small Commercial and Industrial (“C&I”)	\$0.0239
Medium C&I	\$0.0171
Large C&I	\$0.0144
	RDAF charges (\$ per maximum daily contract quantity in therms)
X-Large C&I (G-44B)	\$0.0847
X-Large C&I (G-54B, G-53E)	\$0.1056

As a result of the proposed changes to the RDAF, the average Boston Gas Company residential heating customer (customer class R-3) using on average 27 therms per month during the off-peak period will experience a bill decrease of \$0.16 or 0.26 percent from the previously

effective off-peak period RDAF. The average former Colonial Gas residential heating customer (customer class R-3) using on average 26 therms per month will experience a bill decrease of \$0.16 or 0.28 percent from the previously effective off-peak period RDAF. The Company states that the average monthly bill impact during the off-peak season for all Boston Gas Company and former Colonial Gas Company rate classes at each class's average usage will range from decreases between 0.13 percent and 0.29 percent as compared to the previously effective off-peak period RDAFs. For specific bill impacts, please contact the Company as shown below.
