### NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 25-12

February 18, 2025

Petition of Boston Gas Company d/b/a National Grid, for approval of its Revenue Decoupling Adjustment Factors for the 2025 Off-Peak Period, May 1, 2025 through October 31, 2025.

On January 31, 2025, Boston Gas Company d/b/a National Grid (“Company”) filed a petition with the Department of Public Utilities (“Department”) for approval of its off-peak revenue decoupling adjustment factors (“RDAFs”), for effect May 1, 2025. This filing was made pursuant to the Company’s Revenue Decoupling Adjustment Clause (“RDAC”) tariff, M.D.P.U. No. 62.5. In 2008, the Department developed revenue decoupling by establishing a mechanism through the RDAC that allows the Company to modify, on a semi-annual basis, its base distribution rates as a result of changes in customer usage. Revenue decoupling severs the link between sales and revenues, and instead provides gas and electric utility companies with a target revenue level, thus removing the disincentive of implementation of energy efficiency and demand reduction programs that encourage customers to lower energy usage and demand. See generally Revenue Decoupling, D.P.U. 07-50-A (2008); see also D.P.U. 09-30, at 25-26, 87. The Department has docketed this petition as D.P.U. 25-12.

The Company proposes the following charges effective May 1, 2025 through October 31, 2025:

<b>Boston Gas Company</b>			
<b>Customer Class</b>	<b>Proposed RDAF (\$ per therm)</b>	<b>Current Off-Peak RDAF (\$ per therm)</b>	<b>Change (\$ per therm)</b>
Residential	0.0244	0.0213	0.0031
Small Commercial and Industrial ("C&I")	0.0208	0.0175	0.0033
Medium C&I	0.0146	0.0125	0.0021
Large C&I	0.0112	0.0099	0.0013

Customer Class	Proposed RDAF (\$ per Maximum Daily Contract Quantity (“MDCQ”) therm)	Current Off-Peak RDAF (\$ per MDCQ therm)	Change (\$ per MDCQ therm)
Extra Large C&I (G-44B)	0.0678	0.0607	0.0071
X-Large C&I (G-54B, G-53E)	0.0845	0.0757	0.0088

If the Department approves the changes to the RDAFs as proposed, customers will experience the following bill impacts:

- a residential heating customer in the Boston Gas “division” (R-3B) using on average 22 therms per month during the off-peak period will experience a bill increase of \$0.07 or 0.15 percent;
- a residential heating customer in the former Colonial Gas “division” (R-3C) using on average 22 therms per month during the off-peak period will experience a bill increase of \$0.07 or 0.16 percent;
- a residential non-heating customer in the Boston Gas “division” (R-1Bos) using average 8 therms per month during the off-peak period will experience a bill increase of \$0.03 or 0.09 percent; and
- a residential non-heating customer in the Colonial gas “division” (R-1Col) using on average 8 therms per month during the off-peak period will experience a increase of \$0.02 or 0.08 percent.
- The Company states that average bill impacts for C&I customers on basic service will range between an increase of 0.06 percent to 0.31 percent, depending on rate class and average use.

For specific bill impacts, please contact the Company as shown.
