Unitil

2021 residential oil/propane heating & water heating rebates

Save with rebates on eligible equipment installed between January 1, 2021 and December 31, 2021.

Rebate not to exceed purchase price. Limit three (3) rebates per gas/electric meter.

GET STARTED

1. Contact multiple licensed contractors to get quote(s) for eligible equipment that meets or exceeds minimum efficiency requirements.
2. **Interested in 0% financing?**
Apply for a Mass Save® HEAT Loan prior to installing your equipment. Learn more at [MassSave.com/HEATLoan](https://masssave.com/HEATLoan)
3. Schedule and complete installation of eligible equipment between January 1, 2021 and December 31, 2021.
4. Complete and submit your rebate form:

- **To receive your rebate faster, submit online at [MassSave.com/Rebates](https://masssave.com/Rebates)**
- **By mail, send all required documentation to: Mass Save Residential Heating & Cooling Program
P.O. Box 2528, Manchester, CT 06045**

HOW TO APPLY

REQUIRED DOCUMENTS*

1. ***Completed and signed application.**
2. ***Copy of your most recent electric utility bill.**
3. ***Contractor's invoice including:**

- ☐ *Equipment Make, Model Numbers and Size
- ☐ *Installation Date and Address
- ☐ *Total Install Cost and Proof of Payment
- ☐ Contractor Information

*Required Fields/Documents

Note: Completed rebate application and required documentation must be submitted within 60 days of completion of work and by January 31, 2022. Rebate processing time is typically less when submitting online.

	Customers with central A/C must provide serial number and MAC address to be eligible for additional offerings. Serial No.: _____ MAC Address: _____		

ELIGIBILITY

Offers valid only for residential electric customers in MA where the Mass Save Electric Heating and Cooling Program is offered by Cape Light Compact, Eversource, National Grid and Unitil. Rebate is valid only for equipment installation made by licensed contractors. Only original applications will be accepted. Work is subject to post-installation verification. Additional restrictions may apply, and the program is subject to change without notice.

TERMS AND CONDITIONS

Rebates: Subject to these Terms and Conditions, Cape Light Compact, Eversource Energy, National Grid and Unitil, herein known as the "program administrators (PAs)," through their contractual vendor, herein known as the "rebate administrator," will pay rebates to eligible program administrator customers or designated payees of customers for the installation of eligible high-efficiency heating equipment within the respective program administrator's service territory.

Customer Eligibility: You must be a Massachusetts residential electric customer of a participating PA installing replacement equipment between January 1, 2021 and December 31, 2021. Equipment must have been installed in a home with an active residential program administrator electric account. Rebate administrator must receive completed application and required documents listed within 60 calendar days of installation. Equipment must be installed by a licensed contractor at the customer's address listed on the rebate application. Customer certifies that the described high-efficiency heating equipment, water heating equipment and/or controls have been installed in accordance with all program guidelines and applicable codes. Equipment installed in new construction is not eligible if incentives have already been received through the Renovations and New Construction Path. Projects greater than ten (10) units require pre-approval from the Program. Pre-approval can be obtained by contacting ask@efi.org.

Rebate Application: The customer is responsible for submitting this completed rebate form, which must include the contractor license number and signature. Incomplete applications will not be processed. The customer must complete and submit other required documentation to the rebate administrator. Completed form and documentation must be received (1) within 60 calendar days of equipment installation, and (2) within one year of the verification date noted on the rebate form. If customer receives financing through a HEAT Loan Program Participating Lender, the applicable rebate amount will be deducted from the loan amount and the customer will be responsible to pay the rebate amount upfront.

The customer will be reimbursed the rebate amount once the rebate application has been processed. Program deadlines still apply to customers financing through a HEAT Loan Rebate offer not eligible for commercial equipment. In submitting this application, the customer agrees to all Terms and Conditions.

Post-Installation Verification: Prior to rebate payment, the rebate administrator reserves the right to coordinate an onsite verification through a Mass Save® lead

vendor to ensure that the equipment was installed according to the guidelines of the program. It does not include any kind of safety review and should not be relied upon as one. If the Mass Save lead vendor determines that the equipment installed does not meet the program specifications as described in the application, the rebate administrator reserves the right to refuse payment of the rebate.

No Warranties: The program administrators and rebate administrator do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy of such equipment. The program administrators and the rebate administrator expressly disclaim any and all warranties or representations of any kind, whether oral, statutory, expressed or implied, including, without limitation, warranties of merchantability, usage, suitability or fitness for a particular purpose. Contact your contractor for details regarding equipment performance and manufacturer warranties. The program administrators and the rebate administrator do not endorse, guarantee or warrant any particular contractor, manufacturer or installation.

Changes in the Rebate Offer: These Terms and Conditions may be changed or the offer may be terminated by the program administrators at any time without notice.

Contractor Insurance: The program administrators and the rebate administrator are not responsible for any damage that may be caused by or arise out of an installation of any equipment. The customer must select a contractor who carries appropriate insurance coverage and licenses.

Liability: The program administrators and the rebate administrator are not liable for any customer damages that may occur as a result of the termination of this program beyond the amount of the rebate.

No Tax Liability: The program administrators and the rebate administrator are not responsible for any tax liability that may be imposed as a result of receipt of the rebates.

Electric Benefits: Other than the energy savings realized by customer, customer agrees that program administrator has the unilateral right to apply for any credits or payments resulting from the program or equipment. Such credits and payments include but are not limited to: (a) ISO-NE capacity payments, (b) other electric or natural gas capacity and avoided cost payments or credits, (c) environmental credits, and (d) payments from demand response programs. Customer further agrees customer will not file for such payments or credits either directly or indirectly, and will not consent to any other third party's right to such payments or credits. This right is irrevocable for the life of the equipment unless the program administrator provides written consent.
