

2021

# Residential central air conditioning & central heat pump rebate form

WE ARE MASS SAVE®:

# 2021 residential central A/C & central heat pump rebates

Save with rebates on central A/C & central heat pump equipment purchased and installed between January 1, 2021 and December 31, 2021.

Rebate not to exceed purchase price. Limit three (3) rebates per electric meter.

STANDARD CENTRAL A/C & CENTRAL HEAT PUMP		
Equipment Type	Efficiency Requirements	Rebate Amount <sup>1</sup>
Central Air Conditioning	AHRI SEER ≥ 16, EER ≥ 13	\$50 per ton
Central Heat Pump	Refer to Heat Pump Qualified Products List at <a href="http://MassSave.com/HPQPL">MassSave.com/HPQPL</a>	\$250 per ton

FUEL OPTIMIZATION REBATES				
Equipment Type	Efficiency Requirements	Primary Fuel Type	Additional Requirements	Rebate Amount <sup>1</sup>
Central Heat Pump	Refer to Heat Pump Qualified Products List at <a href="http://MassSave.com/HPQPL">MassSave.com/HPQPL</a>	Oil or Propane	Integrated Controls <sup>2</sup> required unless central heating system is removed. <sup>3</sup> Refer to Integrated Controls Qualified Products List at <a href="http://MassSave.com/ICQPL">MassSave.com/ICQPL</a>	\$1,250 per ton
		Electric Resistance Heat	900 kWh difference between sum of 3 winter-usage and 3 lowest-usage months	
Integrated Controls <sup>2</sup>	Add-on to existing central heat pump	Oil or Propane	Refer to Integrated Controls Qualified Products List at <a href="http://MassSave.com/ICQPL">MassSave.com/ICQPL</a>	Up to \$500 per indoor unit, max of \$1,500

<sup>1</sup> Actual tons are calculated based on AHRI cooling capacity divided by 12,000 BTUs. Rebate amount based on actual tons.

<sup>2</sup> Integrated Controls are either approved control packages or dual fuel thermostats that switch between a heat pump and a central heating system.

<sup>3</sup> The Sponsors of Mass Save® do not recommend fully replacing existing central heating systems with heat pump equipment. Customers that choose to do so may access the Fuel Optimization incentive levels without the installation of an integrated control.

Please see Terms & Conditions for full requirements. Cannot be combined with other rebate for same equipment.

## INTEGRATED CONTROLS

Integrated Controls are either approved control packages or dual fuel thermostats designed to automatically switch between a heat pump and a conventional heating system at a pre-set temperature, creating a more efficient way to heat a home. As each home's heating need is unique, work closely with your contractor to determine whether Integrated Controls are a good fit.<sup>2</sup>

### NEXT STEPS

1. Work with a licensed HVAC professional to determine which equipment is right for your home. Before installation, consider the following:

#### Did you work with a measureQuick Trained Contractor?

measureQuick Trained Contractors make sure equipment is installed to manufacturer specifications.

Systems that are properly installed work at peak efficiency, increasing the comfort and savings in your home.

Visit [MassSave.com/FindaContractor](http://MassSave.com/FindaContractor) to find a measureQuick Trained Contractor. For more information, visit [MassSave.com/CentralAC](http://MassSave.com/CentralAC)

#### 2. Interested in 0% financing?

Apply for a Mass Save HEAT Loan prior to installing your equipment. Learn more at [MassSave.com/HEATLoan](http://MassSave.com/HEATLoan)

3. Offers valid only for residential electric customers in MA where the Mass Save Electric Heating and Cooling Program is offered by Cape Light Compact, Eversource, National Grid and Unitil.

4. Upon completion of installation, apply for a rebate by submitting all required documentation online at [MassSave.com/Rebates](http://MassSave.com/Rebates) or by mail to Mass Save Residential Heating & Cooling Program, P.O. Box 2528, Manchester, CT 06045

## TERMS AND CONDITIONS

### Equipment Requirements

All rebated central air conditioning (A/C) units/systems or heat pumps must be qualified, listed with and certified by the Air Conditioning, Heating, and Refrigeration Institute (AHRI), and meet the program SEER, EER and HSPF requirements (where applicable). The condenser and the evaporator coil must be new and replaced together. The condenser and coil are separate components in a split A/C or heat pump system but, for rebate purposes, are considered one unit. All units must have a thermostatic expansion valve (TXV) or electronic expansion valve (EXV) to qualify for rebate.

SEER, EER (where applicable) and HSPF ratings (for heat pumps only) for condenser, evaporator and air handler (if applicable) must be provided. Both the Consortium for Energy Efficiency (ceeHVACdirectory.org) and the AHRI directory (ahridirectory.org or call 703-600-0384) websites list SEER and EER values. AHRI also provides AHRI numbers. For a qualified products list for integrated controls, refer to MassSave.com/ICQPL. AHRI, SEER and EER rating of outdoor condenser and indoor coil working together. One ton is equal to 12,000 BTUs. Rounding up of SEER, EER or HSPF ratings is not acceptable.

### General Requirements

**Application Form:** This application must be filled out completely, truthfully, and accurately. The customer must date and submit the completed application along with all required documentation for specific rebates and/or incentives. By submitting the rebate application, the customer agrees to abide by these Terms and Conditions.

**Time Limit:** Qualifying units for equipment rebate must be purchased and installed between January 1, 2021 and December 31, 2021. Applications must be postmarked by January 31, 2022. Program is subject to change without prior notice, including rebates and incentive levels.

**Payments:** From the time the application is processed and approved, please allow 6-8 weeks for payment. Payment processing will take longer if information or documentation is missing from the application. If payee information is different from account holder information and the electric utility provider is National Grid, additional processing time will be needed for payee verification.

**Geographic Requirements:** Offers valid only for residential electric customers in MA where the Mass Save Electric Heating and Cooling Program is offered by Cape Light Compact, Eversource, National Grid and Unitil.

**Rebate Limitations:** This rebate may not be combined with any other utility or energy efficiency service provider offer for the same equipment. The limitation does not apply to the HEAT Loan financing program. Other, non-Mass Save rebates or incentives may also be used. Rebate amount not to exceed the cost of equipment (excluding sales tax and all installation costs) and may be subject to change without notice. Equipment installed in new construction is not eligible if incentives have already been received through Renovations & Additions or Residential New Construction.

**Proof of Purchase:** A copy of the customer's invoice itemizing the purchased equipment must accompany each rebate application form. The invoice must indicate the equipment make, coil and condenser model numbers, size in tons, installation date and address, total install cost and proof of payment.

**Contractor Certification:** Contractor certifies that installation and services performed have been in accordance with all applicable municipal, state and federal codes, standards and regulations, as well as program requirements pertaining to the installed system.

**Approval and Verification:** The participating utility or energy efficiency service provider reserves the right to conduct field inspections to verify installations.

**Tax Liability:** Sponsors will not be responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates.

**Endorsement:** Sponsors do not endorse any particular manufacturer, product, system design, or technology in promoting these offers.

**Limitation of Liability:** Sponsors and their rebate administrator's liability is limited to paying the rebate and incentive specified. Sponsors and their rebate administrator are not liable for any consequential or incidental damages or for any damages in tort connected with or resulting from participation in these offers.

**Warranties:** SPONSORS DO NOT WARRANT THE PERFORMANCE OF INSTALLED OR SERVICED EQUIPMENT, EXPRESSLY OR IMPLICITLY. Program sponsors make no warranties or representations of any kind, whether statutory, expressed, or implied, including, without limitations, warranties or merchantability or fitness for a particular purpose regarding the equipment or services provided by a manufacturer or vendor. Contact your contractor for details regarding equipment performance and warranties.

**Electric Benefits:** Other than the energy cost savings realized by customer, the program administrator is entitled to 100% of the benefits and rights associated with the energy-efficient measures, including without limitation ISO-NE products and all other attributes, credits or products associated therewith under any regional initiative or federal, state or local law, program or regulation or program, and customer waives, and agrees not to seek, any right to the same.

**Electric Resistance Heat Replacement Adder:** To be eligible, customer must show that electric resistance was used to heat their home all winter by submitting an electric bill that shows a 900 kWh difference between the sum of the three winter-usage (Dec, Jan, Feb) and three lowest-usage months.
