

# Smart Energy Solutions

## Checking your energy use is simple.

### See just how much energy you use throughout the day.

Now you have access to yearly, monthly and daily detailed graphs that are simple to understand.

These include:

- Energy use over the time period
- Energy cost over the time period
- A comparison of energy use between you and your neighbors
- A comparison of energy use and average outside temperature

### Take control of your energy.

With these insights you can access tips, sign up for efficiency improvements and take control of your energy use.

### We've made it easy to check your energy use.
