

# Smart Energy Solutions

## Making energy-efficiency improvements helps you save.

### **We'll help you find the most rewarding upgrades.**

Our simple-to-use portal includes a variety of energy-efficiency options, a home assessment tool and incentives.

Through our rebate programs and National Grid Marketplace, you could save on:

- Wi-Fi thermostats
- LED lightbulbs
- Furnaces
- Boilers
- Water heaters

### **You'll help keep more money in your pocket!**

By investing in efficiency upgrades and lowering your energy use, you could save on your utility bills.
