Your complete guide to  
converting to natural gas.

**nationalgrid**

## UNDERSTANDING YOUR OPTIONS

This guide provides the information and forms that you will need to convert your home to clean, efficient natural gas. And, National Grid will be right beside you every step of the way.

### Determine the availability of gas in your neighborhood.

Getting started is as simple as a phone call. Before you begin the conversion process, it's important to determine how far away your home is from the natural gas line. Call **1-877-MyNGrid** (877-696-4743) and we will analyze the availability of gas in your area.

If natural gas is not in front of your house, National Grid will provide up to 100 feet of main for free. National Grid will also provide up to 100 feet of service line from the meter location to the street. If any additional main or service line is required, we will provide a quote free of charge. **Please use the information sheet on the last page to help get your neighbors on board so you can all get natural gas.**

### Let us help you select a plumber.

It's important to work with a qualified, licensed plumbing and heating professional when converting your home to natural gas. **And, National Grid can make it easy.**

- If you have already selected a plumber, contact them directly to start the conversion process.
- Or, call **1-877-MyNGrid** to request contact information for one or more of our National Grid Value Plus Installers.

### Choosing the right equipment for your home.

Now that you've selected a plumber, you will work with them to select the optimal heating system. Explore all options with your plumber to design the best system for your home.

#### Asking the right questions to design your system.

Use the **Questions to Ask Your Plumber** quick reference guide to help you get the most out of your discussion.

#### Rebates can open up even more options.

We provide valuable incentives and rebates on high-efficiency equipment to make it easier for your family to save, year-in and year-out. View the **Eligible Heating Equipment and Pricing List** which includes a listing of available incentives and rebates.

#### Keeping you on track.

Use the **Conversion Checklist** to mark all the steps that you complete.

## CONVERTING YOUR HOME

### Submit the Residential Gas Service Agreement and get started.

Now that you have selected your plumbing and heating professional, and understand your options and costs, it's simple to get the conversion process underway.

Print the **Residential Gas Service Agreement** form and working with your plumber, fill it out and email it to [gaslongislandgrowth@nationalgrid.com](mailto:gaslongislandgrowth@nationalgrid.com). You may also mail it to: National Grid, 1650 Islip Avenue, Brentwood, NY 11717 Attn: Customer Connections 2nd Floor.

**Additional Service Line Charges:** If your home requires greater than 100 feet of service or main, National Grid will send you a quote with options for payment.

### Timing of your job.

**Service Line Installation (gas is on your road):** Depending on project scope will take 8-12 weeks.

**Gas Main and Service Line Installation:** Depending on project scope will take 12-14 weeks.

*\*Please note: If you live on a State or County Road, add an additional 4-6 weeks to the time line above.*

### Energy-efficiency heating and control rebates.

We offer rebates on qualifying energy-efficiency equipment for residential, commercial, and multifamily gas heating customers. Installing high-efficiency equipment helps you reduce energy usage, lower your energy bills and ensure a cleaner, "greener" future!

Go to [rebatesee.com](http://rebatesee.com) to submit your rebate applications online or print and mail. Customers who do not have online access can call **1-877-316-9491** to receive an energy efficiency rebate application. **Incentives on high-efficiency equipment are limited and available on a first-come, first-serve basis.**

### Your home's conversion is now underway.

This is what you should expect to happen:

- 1** Call the National Grid Customer Service center at **1-800-930-5003** to establish your customer ID and submit your application.
- 2** We will review your application, design your project, apply for road opening permits, and provide you with an estimated installation date.
- 3** We will install the gas service line to your home then rake and seed any excavated lawn areas.
- 4** Your plumber will install your new heating equipment.
- 5** Your plumber will schedule an inspection with your local municipality.

To better understand what you must do during the rest of this process, please review the **Roles & Responsibilities** quick reference guide.

## REAPING THE REWARDS

### Congratulations!

Now that you have converted to natural gas you are benefiting from:

- the tremendous price advantage compared with heating oil to cut utility bills,
- lower CO<sub>2</sub> emissions to preserve the planet,
- greater reliability and convenience,
- less soot for a cleaner home.

## Don't stop there – take advantage of these valuable incentives.

Claim applicable rebates and rewards by:

- ▶ Visiting [rebatesee.com](http://rebatesee.com) to submit your rebate applications online or print and mail. Customers who do not have online access can call **1-877-316-9491** to receive an energy efficiency rebate application.
- ▶ If you selected a Burnham Boiler, visit [conversionprogram.net](http://conversionprogram.net) clicking on “Register My Owner Rebate” and using your Order Number provided by your plumber, as well as your equipment model and serial number.

**THAT'S IT!** Your home is now energy efficient and saving you money!

**QUESTIONS?** National Grid will be right beside you every step of the way. If you have any questions, please contact us at: **1-877-MyNGrid**.

**QUESTIONS TO ASK YOUR PLUMBER**

Explore all options to design the best system for your home.

▶ **What type and size equipment will I need?**  
(A heat load analysis is the best way to determine the type and size of equipment needed.)  
\_\_\_\_\_

▶ **Is a Conversion Burner an option?**  
\_\_\_\_\_

▶ **Can I install high-efficiency equipment?**  
\_\_\_\_\_

▶ **Will I need to install a chimney liner?**  
\_\_\_\_\_

▶ **What options do I have for my existing oil tank after I convert?**  
\_\_\_\_\_

▶ **What equipment venting options do I have?**  
\_\_\_\_\_

▶ **When should I cancel my oil delivery?**  
\_\_\_\_\_

**QUESTIONS?** National Grid will be right beside you every step of the way.  
If you have any questions, please contact us at: **1-877-MyNGrid.**

## ROLES & RESPONSIBILITIES

Working together, we can make this process easy and rewarding.

### National Grid's responsibility:

- Reviewing your application
- Designing your project
- Applying for the necessary permits from your municipality to excavate on your street and property
- Providing you with an estimated installation date once the permits have been received
- Installing the gas service line to your home
- Raking and seeding excavated lawn areas
- Temporarily patching the road to make the excavation area safe
- Installing your home's gas meter
- Performing final road restoration (weather permitting)

### The plumber's responsibility:

- Correctly size the best heating system for your home
- Provide quote for their work
- Install gas equipment
- Contact National Grid to schedule and meter set appointment at **1-877-597-0426**

### Your responsibility:

- Obtain a plumber
- Call the National Grid Customer Service center at **1-800-930-5003** to establish your customer ID
- Work with your licensed plumber to complete and submit a Residential Gas Service Agreement form
- Send in a payment (if applicable)
- Cancel your oil delivery when new equipment and meter are installed

**QUESTIONS?** National Grid will be right beside you every step of the way.

If you have any questions, please contact us at: **1-877-MyNGrid**.

## CONVERSION CHECKLIST

Track your progress to ensure that you complete all conversion steps.

- Called National Grid to determine the availability of natural gas.
- Selected a qualified, licensed plumber.
- Worked with my plumber to select equipment.
- Called the National Grid Customer Service center at **1-800-930-5003** to establish my customer ID.
- Submitted the Residential Gas Service Agreement form to National Grid.
- Ordered equipment through my plumber.
- Submitted the high-efficiency rebate application (if applicable).
- Paid additional service line charges (if applicable).
- Scheduled installation of equipment and meter with my plumber.
- Claimed all applicable incentives.
- Cancelled oil deliveries.

**QUESTIONS?** National Grid will be right beside you every step of the way.

If you have any questions, please contact us at: **1-877-MyNGrid**.

Burnham Equipment and Furnaces can only be ordered online at [www.conversionprogram.net](http://www.conversionprogram.net)

All prices reflect equipment on items below only. Additional contractor installation/equipment prices will vary.

This agreement is subject to the **Terms and Conditions on the back of this agreement**. KeySpan Gas East Corporation, d/b/a National Grid, NY (National Grid) agrees to install gas service to the above location (Premises). I understand that I may cancel this agreement, without obligation, at any time prior to the installation of the gas service line and main. I hereby authorize National Grid to install a natural gas service line to the address noted above.

**National Grid is NOT RESPONSIBLE for damage to private property (see #4 of "Terms and Conditions" on reverse side).**

The entire project can take approximately 10-14 weeks. If the property is located on a state or county road it can add an additional 4-6 weeks to the project timeline. Please plan accordingly. Please do not have your existing equipment removed until your gas line has been installed.

**Owner/Applicant Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Licensed Plumber Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

## Terms and Conditions of Residential Gas Service Agreement

1. In the event that the actual service line and/or main length exceed tariff allowances, National Grid will require a contribution in aid of construction (CIAC). National Grid will notify Applicant(s) through a separate invoice of any required CIAC. This payment must be made before any work is scheduled.
2. The term "Applicant" means the person or entity identified on the front of this agreement in the block next to Property Owner.
3. Once the meter is set, the Applicant becomes the customer of record and National Grid will commence billing the Applicant and the Applicant agrees to pay for gas service pursuant to the applicable rate classification and in accordance with National Grid's terms and conditions, as filed from time to time with the New York Public Service Commission. Customer must establish a billing account with National Grid before this gas service agreement can be processed
4. National Grid is not responsible to repair private property. Damage to walkways, driveways, shrubs, sprinklers, etc. are the responsibility of the applicant to repair. Excavated lawn areas will be raked and seeded. Applicant is responsible for maintaining all reseeded areas.
5. National Grid shall install the necessary natural gas distribution system to the site, subject to weather conditions (during winter frosts charges will apply) and all federal, state and local codes and permit requirements. In the event that National Grid is unable to obtain the necessary permits to install the gas service line, National Grid shall not be obligated to perform such installation and this Agreement shall be null and void.
6. National Grid will not be responsible for delays or damages associated with the installation of a gas service line due to weather or the issuance of permits, nor will it be responsible for damages attributable to unforeseen conditions beyond its control.
7. (New Construction Only) Applicant shall (i) construct, or cause the construction of all necessary water lines, sewer lines, roads and electrical lines, and will perform other necessary work required to prepare the site for the installation including but not limited to bringing this site to within 6" of final grade and free of debris and scaffolding.
8. Applicant shall provide all easements, rights-of-way, and permits necessary for National Grid to install natural gas distribution lines required to provide service.
9. National Grid will accept or modify the meter location shown on the front of this form based upon its installation requirements.
10. Applicant represents and warrants that it has provided National Grid with all information known to it concerning environmental contamination or threat thereof at or in the vicinity of the Premises, provided that this provision shall not apply to environmental contamination caused by any employee, contractor, agent, or representative of National Grid.
11. Applicant assumes full and complete responsibility for any and all costs associated with any environmental contamination encountered by National Grid during the installation including but not limited to the costs to clean up or remediate such contamination, provided that this provision shall not apply to environmental contamination caused by any employee, contractor, agent, or representative of National Grid.
12. In the event that environmental contamination is encountered during the installation, all work shall cease and National Grid shall provide oral notice and written notice within a reasonable time. Thereafter, National Grid shall have no further obligations under this Agreement, provided that this provision shall not apply to environmental contamination caused by any employee, contractor, agent, or representative of National Grid.
13. Applicant shall to the fullest extent permitted by law, indemnify, hold harmless and release National Grid, its parent company, affiliates and subsidiaries and their respective directors, officers, employees, agents, servants, representatives, successors and assigns from and against all claims, demands, liabilities or expenses related to environmental contamination at or in the vicinity of the Premises. This indemnity and release provision survives the expiration or termination of the Agreement and extends to the respective successors and assigns of National Grid and Applicant.
14. National Grid shall own the natural gas distribution system up to the building wall for each outside customer meter. When the meter is located inside, National Grid shall own the natural gas distribution system up to the first accessible fitting inside the wall of the customer's building.
15. All installations where excavating and backfilling are to be performed by Applicant or his/her designee will be performed in compliance with National Grid's specifications, and the installation shall not commence until said trench is inspected and accepted by a representative of National Grid's construction division.
16. Prior to the start of the work described on the front of this agreement, Applicant is responsible for marking out any underground facilities on their property that are not marked out as a result of National Grid's notification of the New York State One Call system.
17. This Agreement may be modified only by a writing signed by both parties; any verbal representations or modifications by National Grid employees or others shall be null and void.
18. The laws of the State of New York shall govern this Agreement.
19. If any terms of this Agreement or portions thereof are declared or become invalid or unenforceable, the remainder of this Agreement shall continue in full force and effect.

**Natural gas can benefit all of us.**

**That's why I said, YES!**

There are many reasons why I've signed up for natural gas, including having the opportunity to save on my energy bills. That's probably why many of our neighbors have signed up. But, none of us can get natural gas without your help. **National Grid needs a sufficient level of interest to bring it to our neighborhood. That's where you come in – join us by saying 'yes' to natural gas today and we can all benefit!**

### **Natural gas is better for all of us.**

- Cleanest fossil fuel with no odor or residue
- Produced in North America
- Less expensive and more efficient than home heating oil\*
- Only pay for what you use
- No running out, scheduling deliveries or negotiating with your oil company
- Perfect for ranges, ovens, dryers, grills and generators
- Increases your home's resale value by up to 6%\*\*
- Used in most schools, hospitals and fire departments

### **Converting is more affordable than you might think.**

National Grid offers generous incentives on high-efficiency equipment.

**National Grid needs a sufficient level of heating commitments to bring natural gas to your neighborhood.**

### **From your neighbor**

Expressing interest does not guarantee services will be provided. National Grid requires certain participation levels in order to bring natural gas to your neighborhood.

\*National Grid does not guarantee savings. Savings and energy efficiency experiences may vary.

\*\*The National Association of Home Builders (NAHB) found in a number of surveys that prices of single-family homes powered by gas fuel were 4-6% higher than homes powered by electricity, depending on the age.
