Save year after year.

ENERGY STAR certified room air cleaners are 40% more energy efficient than standard models, saving you up to $45 annually. These savings could add up to more than $250 over the life of the air cleaner!

Plus, ENERGY STAR certified room air cleaners help reduce airborne particles and allergens in your home, such as dust, pollen, smoke and pet dander. Airborne particles may be really small, but they can cause problems for the nearly 60 million Americans affected by nasal allergies.

In addition to reducing the amount of airborne particles and allergens in your home, ENERGY STAR certified room air cleaners decrease unpleasant household odors from pets, dirty clothes and sports equipment.
