This agreement is subject to the **Terms and Conditions on the back of this agreement**. Boston Gas Company d/b/a National Grid, Colonial Gas Company d/b/a National Grid and Essex Gas Company d/b/a National Grid (National Grid) agrees to relocate/install a gas service to the above location (Premises). I understand that I may cancel this agreement, without obligation, at any time prior to the relocation/installation of the gas service line. I hereby authorize National Grid to relocate/install a natural gas service line to the address noted above.

Terms and Conditions of Residential Gas Service Relocation Agreement

1. Applicant agrees to pay National Grid \$_____ to aid in the construction of the natural gas service line relocation required to maintain service to the Premises. If the actual relocation scope of work changes, National Grid may bill the Applicant for any additional costs over the original estimate, i.e., (Excess Service Footage), etc.
2. Once the new meter has been set, the Applicant becomes/remains the customer of record and National Grid will commence/continue billing the Applicant and the Applicant agrees to pay for gas service pursuant to the applicable rate classification and in accordance with National Grid's terms and conditions, as filed from time to time with the Massachusetts Department of Public Utilities.
3. National Grid will take reasonable measures to minimize damage to Applicant's property. For existing structures, National Grid will loam and reseed excavated areas and patch disturbed asphalt. Applicant is responsible for maintaining all reseeded areas.
4. National Grid shall install/perform the relocation, subject to weather conditions and all federal, state and local codes and permit requirements. In the event National Grid is unable to obtain the necessary permits to perform the relocation, National Grid shall not be obligated to perform such relocation and this Agreement shall be null and void.
5. National Grid's obligations under this Agreement are subject to verification that the proposed relocation can be installed in a reasonably cost-effective manner and that the site is ready for National Grid to perform the work.
6. National Grid will not be responsible for delays or damages associated with the relocation of a gas service due to weather or the issuance of permits, nor will it be responsible for damages attributable to unforeseen conditions beyond its control.
7. Applicant shall provide all easements and rights-of-way necessary for National Grid to perform the relocation.
8. Applicant represents and warrants that it has provided National Grid with all information known to it concerning environmental contamination or the threat thereof at or in the vicinity of the Premises.
9. Applicant assumes full and complete responsibility for any and all costs associated with any environmental contamination encountered by National Grid during the relocation, including but not limited to the costs to cleanup or remediate such contamination.
10. In the event that environmental contamination is encountered during the relocation, all work shall cease and National Grid shall provide oral and written notice to the Applicant within a reasonable time. Thereafter, National Grid shall have no further obligations under this Agreement.
11. Applicant shall, to the fullest extent permitted by law, indemnify, hold harmless and release National Grid, its parent company, affiliates and subsidiaries and their respective directors, officers, employees, agents, servants, representatives, successors and assigns from and against all claims, demands, liabilities or expenses related to environmental contamination at or in the vicinity of the Premises. This indemnity and release provision survives the expiration or termination of the Agreement and extends to the respective successors and assigns of National Grid and Applicant.
12. National Grid shall own the natural gas distribution system up to the outlet side of each individual customer meter.
13. All installations, where excavating and backfilling are to be performed by Applicant or his/her designee, will be performed in compliance with National Grid's specifications, and the installation shall not commence until said trench is inspected and accepted by a representative of National Grid.
14. Prior to the start of the work described on the front of this Agreement, Applicant is responsible for marking out any underground facilities on their property that are not marked out as a result of National Grid's notification of the Dig Safe system.
15. Prior to the start of the work described on the front of this Agreement, plumbing to new service location, approved by National Grid representative, must be completed with City/State inspection and tag.
16. This Agreement may be modified only by a writing signed by National Grid and Applicant; any other representations or modifications by National Grid employees or others shall be null and void.
17. The laws of the Commonwealth of Massachusetts shall govern this Agreement.
18. If any terms of this Agreement or portions thereof are declared or become invalid or unenforceable, the remainder of this Agreement shall continue in full force and effect.
19. Customer quote is valid for 90 days from the date this Agreement is sent to the customer. After 90 days, this amount is no longer valid and is subject to change.
