CUSTOMER CONNECTIONS
Company required:
Anderson LC-51-C-XB or LC-52-C-XB connectors or equivalent parallel groove connectors with Anderson PTC 51 or 52 or equivalent plastic cover or black electrical tape.

CUSTOMER DRIP LOOP
Leave enough conductors such that a sufficient drip loop will remain according to the Company’s ESB #750 after the Company makes the final connection.

NOTE:
For all other service connection requirements, see the NEC and the Company’s Specifications for Electrical Installations, ESB #750 at www.NiagaraMohawk.com/electricalspecifications.
