

Commitment Form for Gas Service Installation

ADDRESS FOR SERVICE INSTALLATION:

Address _____ Cross Streets: _____ Borough: _____

IMPORTANT: This form must be legibly completed and returned before a gas service will be installed. Receipt of this letter confirms your request for gas service at the above address. Please keep this form until you have selected a plumber or an installing contractor, and are ready for your gas installation. A completed credit application is required for all customers except 1 or 2 family homes. For new construction and building renovations the job site is considered ready for gas service installation when the following criteria are met:

- Installations of sewer, water, and all underground utilities have been completed.
- The building is secured and enclosed. An enclosed building means the walls and the roof of the building have been completed.
- The location of the new gas service is level to final grade, free of debris and scaffolding.

Digital photos of job site readiness are required before service can be scheduled.

If the above criteria are not met and National Grid cannot install the gas service, you will be charged the cost of the permit of excavation issued by the New York City Department of Transportation.

After the gas service is installed, meters are expected to be set and gas utilized within 6 months. Otherwise, you will be charged the cost of the gas service installation.
